Transitional Office Laminate Products

OFFICE FURNITURE GROUP

Building On The Basics

The Harmony line is the perfect solution for the user seeking quality and functionality in a mid-priced office product. Common sense design and engineering make Harmony easy to understand, specify, install and reconfigure. Wood core construction with a durable laminate finish ensures long life at a reasonable cost. Harmony is a comprehensive modular office furniture line with multiple filing and storage options, and generous electrical and data cable management capabilities. It offers easy planning and gives a pleasant work environment for all Federal office needs. The Harmony line comes in preconfigured, typical assemblies for your convenience. But the real beauty of this line is its flexibility. It is designed to allow the user to build on the basics. Harmony

gives you the basic pieces such as stand-alone shell desks, bridges, and credenzas. Then there are the elements that can be added to customize your space. For example, overhead storage units, bookcases, and a choice of desktop organizers offer quick accessibility to computer media and miscellaneous work materials. Transaction components transform desks into reception counters and keep important business forms at the user's fingertips in a presentable organized manner.

Featuring premier quality laminates in six faux wood finishes, and three solid finishes Harmony's color palette offers cool to warm tones that work in any environment. *Harmony—a tremendous value for your furniture investment.*

1000 SERIES

Double Pedestal Desk, Wardrobes with Credenza

Harmony excels in ease of assembly and configuration allowing for a powerful and exciting workplace. You'll find this line gives you many options, such as this distinctive bowed-front desk and comprehensive utility credenza. There are any number of items that can be added to these basic units to customize your space. In this example, complementing the free-standing desk are matching wardrobes at each end of the wall unit. Overhead storage, a mobile pedestal and a versatile paper management organizer are all part of a modular work space designed for convenience.
