A BUYER'S SOURCE GUIDE

UNICOR

UNICOR/Office Furniture Group

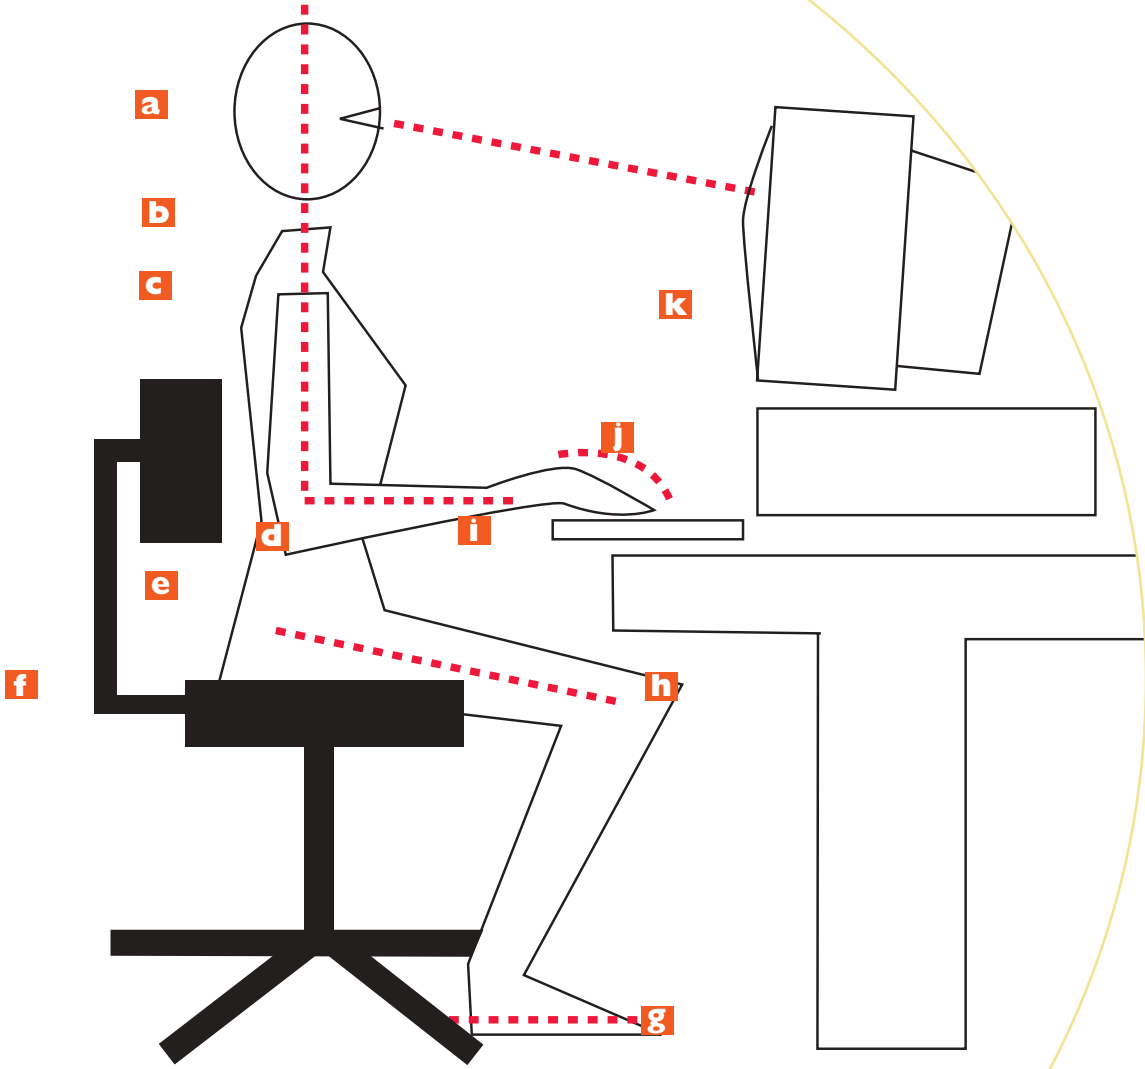
wants to be your first choice when

ordering office furniture.

That's why we continue

to offer the great selection,

price and service.



THE ERGONOMICALLY POSITIONED WORKSTATION

PREVENTING WORK-RELATED MUSCULOSKELETAL DISORDERS

Many posture problems are easily corrected and/or avoided with a fully adjustable chair and a computer screen that tilts and adjusts to avoid awkward positions.

All UNICOR/Office Furniture Group task seating supports ergonomically correct work environments by providing the selections and choices needed to ensure correct posture.

a *HEAD*
Directly over shoulders, without straining forward or backward, about an arm's length from the screen.

b *NECK*
Elongated and relaxed.

c *SHOULDERS*
Kept down, with the chest open and wide.

d *ELBOWS*
Relaxed at a 90 degree angle.

e *BACK*
Upright or inclined slightly forward from the hips. Maintain the slight natural curve of the lower back.

f *CHAIR*
Sloped slightly forward to facilitate proper knee position.

g *FEET*
Firmly planted on the floor. A footrest may be needed.

h *KNEES*
Slightly lower than the hips.

i *WRISTS*
Relaxed in a neutral position, without being flexed either up or down.

j *FINGERS*
Slightly curved.

k *SCREEN*
At eye level or slightly lower.

UNICOR/Office Furniture Group

A few tips can prevent

work-related repetitive stress injuries:

- ***Use a fully adjustable UNICOR chair to ensure correct posture***
- ***Use wrist rests***
- ***Take a short break every hour***

Remember: In most cases, it's much

easier to prevent musculoskeletal

disorders than to treat or cure them.

For more information on ergonomics,

visit www.osha.gov

Ergonomics and posture in the workplace

Over the last several years, more and more American workers have been spending their days in an office environment, much of that time in front of a computer. This makes it even more important for employers to understand ergonomics and to choose office furnishings, tools and supplies that will meet the needs of their employees.

So what is ergonomics?

Ergonomics is the study of the relationship between workers and their environment, including the tools they use, the chair they sit in, and the design of their computers and workstations. In short, it's the science of fitting the job to the worker. According to OSHA, when the physical demands of the job don't mesh with the physical abilities of the worker, it can result in musculoskeletal disorders such as back pain and repetitive strain injuries.

Why is ergonomics so important?

Along with good posture, ergonomics is key to the prevention of these workplace-related disorders. In 1999, the Bureau of Labor Statistics reported 582,300 musculoskeletal injuries that resulted in missed work. While the numbers continue to decrease, musculoskeletal disorders still account for approximately one-third of all work-related injuries, with office workers making up one of the largest groups of sufferers.

Preventing work-related musculoskeletal disorders

Back Problems

Back pain is a problem for workers who sit at a desk or other type of workstation all day. The pain is caused in part by poor posture, which can:

- *Put undue stress on the spine*
- *Cause tension of the neck, shoulder, back and chest muscles*
- *Constrict the digestive and respiratory organs*
- *Lead to fatigue and a lack of concentration*

Many posture problems are easily corrected and/or avoided with a fully adjustable chair and a computer screen that tilts and adjusts to avoid awkward positions.

Repetitive Strain Injuries

Hand, finger and wrist pain can be caused by repetitive movements over long periods of time. Some of the many repetitive strain injuries include:

- *Carpal Tunnel Syndrome*
- *Cumulative Trauma Disorder*
- *Tendonitis*
- *Bursitis*

B — Select fabric or leather upholstery.

THE OVERTURE SEATING COLLECTION — FREEDOM SERIES

INTELLIGENT HEADREST

Freedom’s dynamic, position-sensitive headrest moves into place as you recline and out of the way as you sit upright. Its contours cradle your neck for unmatched comfort. Headrest height can easily be set within a 5-inch range to fit virtually any user.

INSTANTLY ADJUSTABLE ARMRESTS

Body-friendly armrests adjust in sync to keep you in balance. Adjustment is accomplished instantly with a simple, one-handed motion. With an expansive height range of 7 inches that includes below-thigh-level positioning, armrests can quickly move into the ideal position for any task.

PASSIVE RECLINE SUPPORT

Freedom incorporates an intelligent mechanism that senses the weight of the user and automatically adjusts to provide optimal support in every seated position — without knobs, locks or levers. The recline ranges from 6° forward to 27° back, providing maximum flexibility and constant support.

Drafting Stool with Arms and Adjustable Foot Ring

Drafting Stool without Arms and with Adjustable Foot Ring

The Tempo collection is perfect when economy needs to be considered without compromising comfort and function. Ideal for workstations where seating solutions are too large and out-of-scale, this series features high-density, resilient foam in both back and seat, and offers all the same features typically found only in much higher-priced seating.

TEMPO SERIES STANDARD FEATURES AND FUNCTIONS:

- *adjustable vertical and horizontal arms*
- *tear drop soft polyurethane arms*
- *fixed seat depth*
- *tension knob control*
- *back angle adjustment*
- *pneumatic height adjustment*
- *forward tilt*
- *back height adjustment*
- *infinite position tilt-lock*
- *adjustable foot ring available on stools*
- *carpet casters*

UNICOR WARRANTY

Life Expectancy for UNICOR Seating

The life expectancy of a chair is based upon the normal use of the chair, as defined below.

Based on a 40 hour week by individuals of 250 lbs or less, unless otherwise indicated, without abuse or misuse, UNICOR seating will have the indicated life expectancy for the following components:

■ All non moving metal components	10 years
■ Self-skinned urethane parts, plastic shells	10 years
■ Casters	10 years
■ Wood parts and frames	10 years
■ Mechanism	10 years
■ Pneumatic cylinders	10 years
■ Fabrics	3 years (excludes COM/COL)

This life expectancy statement applies to the original purchaser of UNICOR's seating products, and is in effect upon the receipt of order.

All UNICOR seating is manufactured to the highest industry standards shall be free from defects in material and workmanship. For more information and ordering call our customer service line at 800 827-3168.
