Sign Products Catalog

UNICOR Sign and Decal Catalog: An Easy Reference

The UNICOR Sign Catalog has been updated and reorganized to provide you with the information needed to order signs quickly, accurately, and in most cases, without assistance.

Take a moment to look through the catalog before you order. You'll notice several things we've done to help you:

- New condensed format makes the revised catalog easy to use
- Sections color-coded for fast reference
- Relevant regulatory information included to assist you
- An index on page 45 will locate any sign you need

Professional Affiliations

UNICOR is a member of the Screen Printing Association International (SPAI), the international organization for the screen printing industry. Its membership includes commercial printers, supplier companies, non-profit agencies and organizations, and schools.

UNICOR is also a founding member of the Screen Printing Technical Foundation (SPTF). This research and educational foundation is designed to advance screen printing by promoting industry standards and specifications, and to enhance educational efforts.

Product Warranty

UNICOR, Federal Prison Industries, Inc., warrants its products to be free from defective materials and workmanship, however, this warranty does not exceed vendor material product warranties. If the materials and workmanship in our products do not meet contract specifications, please notify the Customer Service Group immediately, We stand behind our products and your satisfaction is our ultimate goal.

About UNICOR

UNICOR is the trade name for Federal Prison Industries, Inc., a wholly-owned Government corporation established in 1934 as part of the Federal Prison System. Since its beginning, UNICOR has been a unique corporation. While its primary mission is to train, educate and employ inmates, the benefits to you are high quality products and services at competitive prices.

UNICOR sells to Federal Government departments and agencies, such as DOD, GSA, VA, and the U.S. Postal Service. Procurement regulations and procedures for departments and agencies of the U.S. Government are in the Federal Acquisition Regulations, Subpart 8.6.

For catalogs and other information on UNICOR products and services, contact Customer Service at (800) 827-3168 or visit www.unicor.gov.

UNICOR – Your Number One Source for Signs

We make ordering signs as easy as possible. Professional staff to assist you. With one quick call, you will reach one of our efficient staff who will promptly answer any questions you may have and help with your sign order.

- Custom orders are a large part of our business. We're happy to manufacture just what you need.
- Quick and easy order processing – send or Fax (859-254-9048) your order and in 30 - 45 days you'll receive your signs.
- Customer service – To check the status of your order, call our Customer Service line toll free at (800) 827-3168.
- Signs meet the exacting standards of MUTCD and OSHA.

Ordering Information

How to Order from the UNICOR Catalog

This catalog takes you step-by-step through the ordering process. Your order will be quickly processed and your standard signs will arrive approximately 30 days after the acceptance of your order. Custom signs take 30 - 45 days.

To Order:

1. Turn to the color-coded section for the type of sign you need.
2. Look for the picture of the sign you need.
3. Enter the following information on your order form:
   - Size
   - Stock number or MUTCD number
   - Type of sheeting and substrate
   - Quantity of signs
   - Per unit price (Prices are in accompanying price list and are FOB origin.
   - Your name and telephone number
4. For a quote on custom signs, use the quotation form on page 42.
5. If you have technical questions about ordering signage, call (800) 827-3168.
6. Send the purchase order form required by your agency to:

   UNICOR Customer Service Center
   P.O. Box 13640
   Lexington, KY 40583-3640

   Fax (859) 254-9048
7. Colors of signs in this catalog may vary from those of actual signs.
8. Information about UNICOR's waiver policy is available upon request.
9. **If you have any questions about your order or the ordering process, call (800) 827-3168.**

Terms and Conditions

1. Prices are FOB origin.
2. Payment terms are Net 30.
3. For a fee, shop drawings can be provided upon request.
4. Shipment will be made by the most economical means unless an alternative method of shipping is specified by the customer.
5. Sign legends shall comply with those pictured in this catalog. Other legends are available as custom signs.
6. Agency Location Code (ALC) for SIBAC/OPAC billing must be included on your order if appropriate.

Selecting Substrate and Sheeting for Signs

- Substrate - the type of material used for the basic sign.
- Sheeting - the face of the sign that is affixed to the substrate.

Types of Substrate and Their Uses

Aluminum - Aluminum is the substrate most frequently used for signs, particularly traffic signs, because it is durable, lightweight, and rustproof.

Plywood - High density overlay (HDO) plywood is most frequently used in parks and forest because of its aesthetic compatibility with rustic settings.

Plastic - Plastic is normally used for interior signs and some smaller signs. Usually ordered as non-reflective, plastic signs can also be ordered with reflective sheeting.

Magnetic - Magnetic signs are used where easy removal from steel surfaces is necessary. They can have messages on both sides.

Fiberglass - Fiberglass is frequently used for outdoor signs. It absorbs impact without splintering or shattering and is very durable.

Cardboard - Cardboard is used for posters, which have a short life unless mounted or framed.

Types of Sheeting and Their Uses

Some type of sheeting is required for a sign to be reflective. For example, most traffic signs and some danger and warning signs are required to be reflective by the Manual on Uniform Traffic Control Devices (MUTCD) and OSHA.

Non-Reflective - used most effectively during daylight hours for signs that do not have to be read at night or in darkened rooms.

Engineer-Grade Retro-Reflective - the industry standard sheeting used on most reflective signs. Highly reflective for signs that must be ready at night or in darkened rooms.

High-Intensity Retro-Reflective - normally used on signs when additional reflectivity is needed, such as in areas where vehicles are traveling at high speeds.

Phosphorescent - can be custom-ordered for any sign in this catalog. Its ability to absorb light for long periods of time makes it a primary sheeting for signs that need to be readable for a time after a light source has failed.

Special Adhesives for Sheeting

Reflective and non-reflective sign faces are produced with pressure-sensitive adhesive. Other adhesives can be used upon special request at custom sign prices.

Prepostionable Adhesive - Allows adjustment of the position of the sheeting, simply apply pressure over its surface to affix it.

Cold Weather Adhesive - Allows application of sheeting in cold weather.

Removable Adhesive - Allows temporary use of sheeting. Can be easily removed when no longer needed.

Tamper-proof Adhesive - Destroys the sheeting if removal is attempted.

Pressure Sensitive - Affixes on first pressure and should never be repositioned.

Heat-Activated - Must be applied using a vacuum heat applicator.

Traffic Control Devices: Regulatory Signs

The traffic control devices in the UNICOR sign catalog meet the requirements of the Manual on Uniform Traffic Control Devices (MUTCD). If there is no MUTCD number listed, the sign is not MUTCD approved. An **H.A.** indicates **High Intensity Retro-Reflective Sheeting on Aluminum Panel**. **R.A.** indicates **Engineer Grade Retro-Reflective Sheeting on Aluminum Panel**. All traffic sign prices are based on .080 gauge H38,5052 aluminum.

UNICOR offers an extensive selection of traffic control signs:

- **Regulatory Signs–**
  A full selection of traffic control signs
- **Warning Signs–**
  Indicate road conditions and hazards
- **Construction Signs–**
  Inform of conditions that may impede travel
- **Guide Signs–**
  Alert travelers to facilities along the roadway and provide directions
- **School Signs–**
  Govern the flow of foot and vehicle traffic in and around school areas
- **Barricade Signs–**
  Indicate the presence of barriers to traffic on or along the roadway and indicate the direction the traffic should flow
- **Delineator Signs–**
  Object markers for roadways

Selection of traffic control devices is affected by engineering studies, MUTCD regulations, and variable conditions such as visibility and area. Specific sheeting and substrate vary depending on your needs.

Recreational Symbols

UNICOR offers a broad selection of recreation signs. Symbols appear in white on a brown background, and are available on:

- Aluminum with reflective or non-reflective surface
- .125 inch fiberglass or plastic with reflective or non-reflective finish
- Pressure-sensitive decals with either reflective or non-reflective finish
- Various substrates, such as HDO plywood, Lexan™ and plexiglass.

How to Order:

When ordering, you must:
1. Select the size.
2. Select the finish you want and add both to the stock number.
3. If you want a prohibitive slash and/or legend information, please add to stock number by using indicated symbols.
4. Pricing is contained in a separate price list that accompanies this catalog.

1. Choose the size of your recreation sign.

Recreation symbols are available in a variety of sizes.

Standard Signs
- 6” x 6”
- 8” x 8”
- 12” x 12”
- 18” x 18”
- 24” x 24”

Custom Signs with One-Line Legend:
- 6” x 8.5”
- 8” x 10.5”
- 12” x 16”
- 12” x 18.5”
- 18” x 24”
- 18” x 28.5”
- 24” x 28.5”

Custom Signs with Two-Line Legend:
- 24” x 32”

Custom Signs with Three-Line Legend
- 24” x 36”

2. Choose the finish of your sign.

Recreation signs are all available in the following finishes. Use these codes after the stock number to specify your choice of finish when ordering.

RA = Retro-Reflective Sheeting on Aluminum Panel

NA = Non-Reflective Aluminum

RF = Reflective Fiberglass

NF = Non-Reflective Fiberglass

3. Do you want a prohibitive red slash and/or accompanying legend?

Some signs in this section are marked by a ★ to indicate that they may be ordered with an accompanying legend, with a prohibiting red slash, or both. Indicate after the symbol number is you wish to include one or more of these on your recreation sign:

X = Prohibitive slash (Add $1.00 per sign)

L = Legend (See example 3 below)
XL = Prohibitive slash and accompanying legend (see Example 4 below)

Example 1: 8" x 8" in Reflective Aluminum

RS-001-8x8RA

Example 2: 18" x 18" in Reflective Fiberglass

RS-003-18x8RF

Example 3: 12" x 16" in Non-Reflective Aluminum

NO SMOKING

RS-002-L-12x16”

Example 4: 124" x 28.5" in Non-Reflective Fiberglass

NO TRUCKS

RS-004-XL-24x28.5NF

Safety Signs

UNICOR offers a large selection of safety signs that meet the Occupational Safety and Health Administration (OSHA) regulations (Code of Federal Regulations, Title 29, Part 1910). Safety signs are intended "to indicate and, insofar as possible, to define specific hazards of a nature such that failure to designate them may lead to accidental injury to workers or the public, or both, or to property damage." (OSHA, 1910.145, "Specifications for accident prevention signs and tags.")

Safety in the workplace is crucial, and it is everyone's concern and everyone's responsibility. Because the regulations regarding the design, application, and use of signs and symbols for accident prevention are specific, we have provided sample regulations with the signs to which they refer. For more complete information, refer to the OSHA and EPA regulations.

Most UNICOR safety signs are available in phosphorescent material by custom order.

In addition, we can fabricate safety signs for you with any legend you need appearing beneath "WARNING," "CAUTION," "SAFETY FIRST," "NOTICE," or "DANGER."

If these signs are new to you, take a few minutes to familiarize yourself with them. Typical colors, uses, and legends are shown in the following paragraphs. The signs appear on pages 30 to 39. Pricing information is provided in the accompanying price list.

Types of Safety Signs

- **Danger Signs**

  "DANGER" signs warn industrial workers and the public of imminent hazards. They also indicate immediate danger and warn that special precautions should be taken.

- **Caution Signs**

  "CAUTION" signs are only used to warn against potential hazards or to caution against unsafe practices in which proper precautions should be taken.

- **Hazardous Material Warning Placards**

  Hazardous materials placards indicate the presence of certain classes of hazardous materials. Chemical hazards must be marked so that in case of emergency they can be identified. The information on placards is for general guidance only and must not be used to determine compliance with 49 CFR, Parts 100-199.

  "Employers must train employees to recognize and deal with hazardous materials. This placard provides a quick reference to the level and type of hazard present."

- **Safety First Signs**

  Also called "Safety Instruction Signs," these signs are used whenever there is a need for general instructions and suggestions relative to safety measures.

- **Notice Signs**

  "NOTICE" signs provide information that prevents confusion and misunderstanding.

- **Radiation Hazard**

  Radiation hazard placards and decals identify areas where radiation is present. "Each radiation area shall be conspicuously posted with a sign or signs bearing the radiation symbol…and the words:

  CAUTION
  RADIATION AREA

  The text may vary in an area of greater risk, as in "HIGH RADIATION AREA" (1910.96 (e)(2)). The magenta or purple color of the radiation hazard symbol is unique to this type of placard or decal."

- **Fire Protection Markers**

  Fire protection markers indicate the location of fire equipment, exits, and fire escapes. "Red is the basic color for the identification of fire equipment and apparatus." (1910.144 (a)(1)(i))

  Fire exit markers point the way to safe exits to be used in case of a fire, as well as identifying the exits themselves. Where possibility of error exists in identifying an exit, it is sometimes necessary to identify non-exits to avoid confusion.

  Fire equipment signs point out the location of fire fighting equipment such as fire hoses and fire extinguishers.

  Fire protection markers are also available by custom order in phosphorescent material.

Applicable OSHA Regulations

■ Hazardous Material Warning Signs

1910.107 (g)(7) “No Smoking” signs. “No smoking” signs in large letters on contrasting color background shall be conspicuously posted at all spraying areas and paint storage rooms.

1910.1003 (e)(1)(iii) Appropriate signs and instructions shall be posted at the entrance to, and exit from, regulated areas, informing employees of the procedures that must be followed in entering and leaving a regulated area.

1019.1003 (e)(4) Prohibited statements. No statement shall apear on or near any required sign, label, or instruction which contradicts or detracts from the effect of any required warning, information or instruction.

1019.160 (b)(5) The employer shall post hazard warning or caution signs at the entrance to, and inside of, areas protected by fixed extinguishing systems which use agents in concentrations known to be hazardous to employee safety and health.

■ Danger, Caution and Safety Instruction Signs

1910.145 (c) Classification of signs according to use–(1) Danger signs. (i) There shall be no variation in the type of design of signs posted to warn of specific dangers and radiation hazards.

1910.145 (c)(2) Caution signs. (i) Caution signs shall be used only to warn against potential hazards or to caution against unsafe practices.

1910.145 (c)(2)(ii) All employees shall be instructed that caution signs indicate a possible hazard against which proper precaution should be taken.

1910.145 (c)(3) Safety instruction signs. Safety instruction signs shall be used where there is a need for general instructions and suggestions relative to safety measures.

1910.145 (d)(2) Danger signs. (i) The colors red, black and white shall be those of opaque glossy samples as specified in Table 1 of Fundamental Specification of Safety Colors for CIE Standard Source C, American National Standard Z53.1-1967.

1910.145 (d)(4) Caution signs. (i) Standard color of the background shall be yellow; and the panel, black with yellow letters. Any letters used against the yellow background shall be black. The colors shall be those of opaque glossy samples as specified in Table 1 of American National Standard Z53.1-1967.

1910.145 (d)(6) Safety instruction signs. (i) Standard color of the background shall be white; and the panel, green with white letters. Any letters used against the white background shall be black. The colors shall be those of opaque glossy samples as specified in Table 1 of American National Standard, Z53.1-1967.

1910.145 (d)(10) Slow moving vehicle emblem. This emblem consists of a fluorescent yellow-orange triangle with a dark red reflective border. The yellow-orange fluorescent triangle is a highly visible color for daylight exposure.

1910.145 (e)(2) Nature of wording. The wording of any sign should be easily read and concise. The sign should contain sufficient information to be easily understood. The wording should make a positive, rather than negative suggestion and should be accurate in fact.

1910.145 (e)(4) Biological hazard signs. The biological hazard warning shall be used to signify the actual or potential presence of a biohazard and to identify equipment, containers, rooms, materials, experimental animals or combinations thereof…

■ Fire Exit Markers

1910.36 (b)(5) Any doorway or passageway not constituting an exit or way to reach an exit, but of such a character as to be subject to being mistaken for an exit, shall be so arranged or marked as to minimize its possible confusion with an exit…

1910.37 (q) Exit marking. (1) Exits shall be marked by a readily visible sign.

1910.37 (q)(5) A sign reading “Exit,” or similar designation, with an arrow indicating the directions, shall be placed in every location where the direction of travel to reach the nearest exit is not immediately apparent.

1910.37 (q)(8) Every exit sign shall have the word “Exit” in plainly legible letters not less than 6 inches high, with the principal strokes of letters not less than three-fourths-inch wide.

Safety Signs: "DANGER"

Danger signs are available with any message you want. Shown below are some of the most frequently ordered signs. If you need a special message, UNICOR will design it for you. To order a custom danger sign, simply order the sign DGR-1 in the size and material you want and specify your message.

Safety Signs: Hazardous Material Warning Placards

Stock NO.	Class	Description
HAZ-P-1	CLASS 1	Explosives
*Enter Division Number 1.1, 1.2, or 1.3 and compatibility group letter, when required. Placard any quantity.		
HAZ-P-2	CLASS 1	Explosives 1.4
*Enter compatibility group letter, when required. Placard 454 kg (1,001 lbs) or more.		
HAZ-P-3	CLASS 1	Explosives 1.5
*Enter compatibility group letter, when required. Placard 454 kg (1,001 lbs) or more.		
HAZ-P-4	CLASS 1	Explosives 1.6
*Enter compatibility group letter, when required. Placard 454 kg (1,001 lbs) or more.		
HAZ-P-5	CLASS 2	Oxygen
Placard 454 kg (1,001 lbs) or more, gross weight of either compressed gas or refrigerated liquid.		
HAZ-P-6	CLASS 2	Flammable Gas
Placard 454 kg (1,001 lbs) or more.		
HAZ-P-7	CLASS 2	Non-Flammable Gas
Placard 454 kg (1,001 lbs) or more gross weight.		

Stock NO.	Class	Description
HAZ-P-8	CLASS 2	Poison Gas
Placard any quantity of Division 2.3 material.		
HAZ-P-9	CLASS 3	Flammable
Placard 454 kg (1,001 lbs) or more.		
HAZ-P-10	CLASS 3	Gasoline
May be used in the place of Flammable on a placard displayed on a cargo tank or a portable tank being used to transport gasoline by highway.		
HAZ-P-11	CLASS 3	Combustible
Placard a combustible liquid when transported in bulk. See §172.504(f)(2) for use of FLAM-MABLE placard in place of COMBUSTIBLE placard.		
HAZ-P-12	CLASS 3	Fuel Oil
May be used in place of COMBUSTIBLE on a placard displayed on a cargo tank or portable tank being used to transport by highway fuel oil not classed as a flammable liquid.		
HAZ-P-13	CLASS 4	Flammable Solid
Placard 454 kg (1,001 lbs) or more.		
HAZ-P-14	CLASS 4	Spontaneously Combustible
Placard 454 kg (1,001 lbs) or more.		

HAZARDOUS MATERIALS WARNING LABELS ARE MADE OF ADHESIVE-BACKED NON-REFLECTIVE MATERIAL. ALL LABELS ARE 4" X 4". THE INFORMATION BELOW IS FOR GENERAL GUIDANCE ONLY AND MUST NOT BE USED TO DETERMINE COMPLIANCE WITH 49 CFR, PARTS 100-199.

Safety Signs: Hazardous Material Warning Placards

Stock NO.	Class	Description
HAZ-P-15	CLASS 4	Dangerous When Wet

Placard any quantity of Division 4.3 material.

Stock NO.	Class	Description
HAZ-P-16	CLASS 5	Oxidizer

Placard 454 kg (1,001 lbs) or more.

Stock NO.	Class	Description
HAZ-P-17	CLASS 5	Organic Peroxide

Placard 454 kg (1,001 lbs) or more.

Stock NO.	Class	Description
HAZ-P-18	CLASS 6	Keep Away From Food

Placard 454 kg (1,001 lbs) or more.

Stock NO.	Class	Description
HAZ-P-19	CLASS 6	Poison

Placard any quantity of 6.1, PGI, inhalation hazard only. Placard 454 kg (1,001 lbs) or more of PGI or II, other than PGI inhalation hazard.

Stock NO.	Class	Description
HAZ-P-20	CLASS 7	Radioactive

Placard any quantity of packages bearing the RADIOACTIVE III label. Certain low specific activity radioactive materials in "exclusive use" will not bear the label, but RADIOACTIVE placard is required.

Stock NO.	Class	Description
HAZ-P-21	CLASS 8	Corrosive

Placard 454 kg (1,001 lbs) or more.

Stock NO.	Class	Description
HAZ-P-22		Dangerous

Placard 454 kg (1,001 lbs) gross weight of two or more categories of hazardous materials listed in Table 2. A freight container, unit load device, motor vehicle, or rail car which contain non-bulk packagings with two or more categories of hazardous materials that require placards specified in Table 2 may be placarded with a DANGEROUS placard instead of the separate placarding specified for each of the materials in Table 2. However, when 2,268 kg (5,000 lbs) or more of one category of material is loaded at one facility, the placard specified in Table 2 must be applied.

Stock NO.	Class	Description
HAZ-P-23	CLASS 9	Miscellaneous

Not required for domestic transportation. Placard 454 kg (1,001 lbs) or more gross weight of a material which presents a hazard during transport, but is not included in any other hazard class.

Stock NO.	Class	Description
HAZ-P-24		Subsidiary Risk Placard

Class numbers do not appear on subsidiary risk placard.

Stock NO.	Class	Description
HAZ-P-25		Rail

Placard empty tank cars for residue of material last contained.

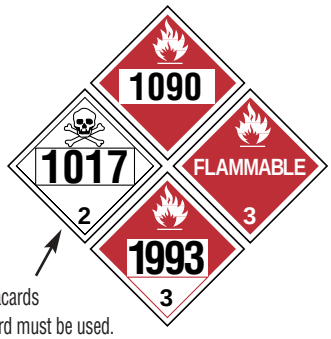
HAZ-P-26

Required background for placards on rail shipments of certain explosives and poisons. Also required for highway route-controlled quantities of radioactive materials (see §§172.507 and 172.510).

UN or NA Identification Numbers

Must be displayed on tank cars, cargo tanks, portable tanks and other bulk packagings.

HAZ-P-27 Orange Panels



HAZ-P-28 Placards

Appropriate Placard must be used.

Safety Signs: "Safety First"

Safety and notice signs are available with any message you may wish. Shown below are some of the most frequently ordered signs. If you need a special message, UNICOR will design it for you. To order a custom safety or notice sign, simply order the sign SFTY-1 (for safety) or NOT-1 (for notice) in the size and material you want and specify your message.

MUTCD NO.	SIZE	N.P. STOCK NO.	N.R. STOCK NO.

Decals

Decals can be custom made to your specifications in any size and shape. We can screen print them in any color you want. Decals are pressure sensitive and can be easily applied on any clean dry surface. UNICOR can produce decals from your artwork or we can design artwork for you at no additional cost. On all jobs, you will receive a sample for approval before your order is printed. For more information, call (800) 827-3168.

Engraved Signs

UNICOR offers a wide selection of custom designed engraved signs and nameplates that match most decors. These plastic signs and nameplates can be ordered in nearly any color and size and are constructed of durable, weather-resistant plastic.

Nameplates and Holders

Both desk plates and wall plates have room for a name and agency seal, and come in a variety of colors (call for specifics). Price includes the holder and the nameplate.

Name Badges

Badges are made of plastic and can be produced with logos and inscriptions in a variety of sizes and colors. The most common size is 3” x 1”. Specify badge hardware listed below.

Magnetic Signs

Magnetic signs are for use on metal surfaces or siding. They may have a different message on each side. Any sign face or decal can be produced on magnetic stock in many colors.

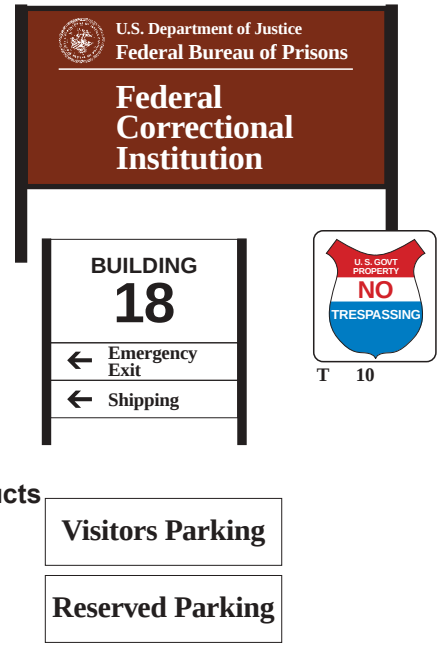
Mousepad & Coffee Mugs

UNICOR can custom manufacture mousepads, wrist rests or matching sets for your organization. These mousepads make great employee incentive awards or can be used to standardize offices. We can print your agency emblem or seal or can customize pads from your own design.

For Ordering Information & Technical Assistance for products on this page call:
800-827-3168 or visit www.amerimac.net

Informational Signs

Any signs not offered in our standard stock of signs can be fabricated to your specifications. Signs can be produced in many languages as long as you provide the necessary text or symbols required.



Exterior Architectural Signs

UNICOR can help you achieve a successful sign program. Our large selection of standard signs facilitates ordering a basic model or a customized message to fit your needs. Design and installation services can be provided upon request. See the UNICOR Architectural Signage Catalog for a complete listing of our offerings or visit **www.unicor.gov/industrial_products**

All UNICOR signs comply where necessary with the Americans with Disabilities Act (ADA). Where applicable, raised letters and Grade 2 Braille are used.

Three Dimensional Seals

Constructed of high density polyurethane foam and available in a variety of metallics and wood grains, our three dimensional seals look and feel like cast or routed material, without the cost, weight or installation issues. They are ideal for lobbies, conference rooms or any federal public spaces.
