

HARMONY

Transitional Office Laminate Products

UNICOR

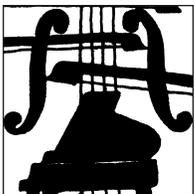

Building On The Basics

The Harmony line is the perfect solution for the user seeking quality and functionality in a mid-priced office product. Common sense design and engineering make Harmony easy to understand, specify, install and reconfigure. Wood core construction

with a durable laminate finish ensures long life at a reasonable cost.

Harmony is a comprehensive modular office furniture line with multiple filing and storage options, and generous electrical and data cable management capabilities. It offers easy planning

and gives a pleasant work environment for all Federal office needs. The Harmony line comes in preconfigured, typical assemblies for your convenience. But the real beauty of this line is its flexibility. It is designed to allow the user to build on the basics. Harmony

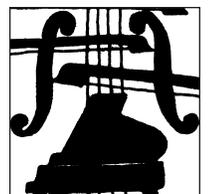

HARMONY

gives you the basic pieces such as stand-alone shell desks, bridges, and credenzas. Then there are the elements that can be added to customize your space. For example, overhead storage units, bookcases, and a choice of desktop organizers

offer quick accessibility to computer media and miscellaneous work materials. Transaction components transform desks into reception counters and keep important business forms at the user's fingertips in a presentable organized manner.

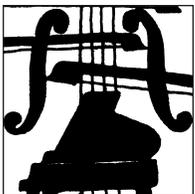

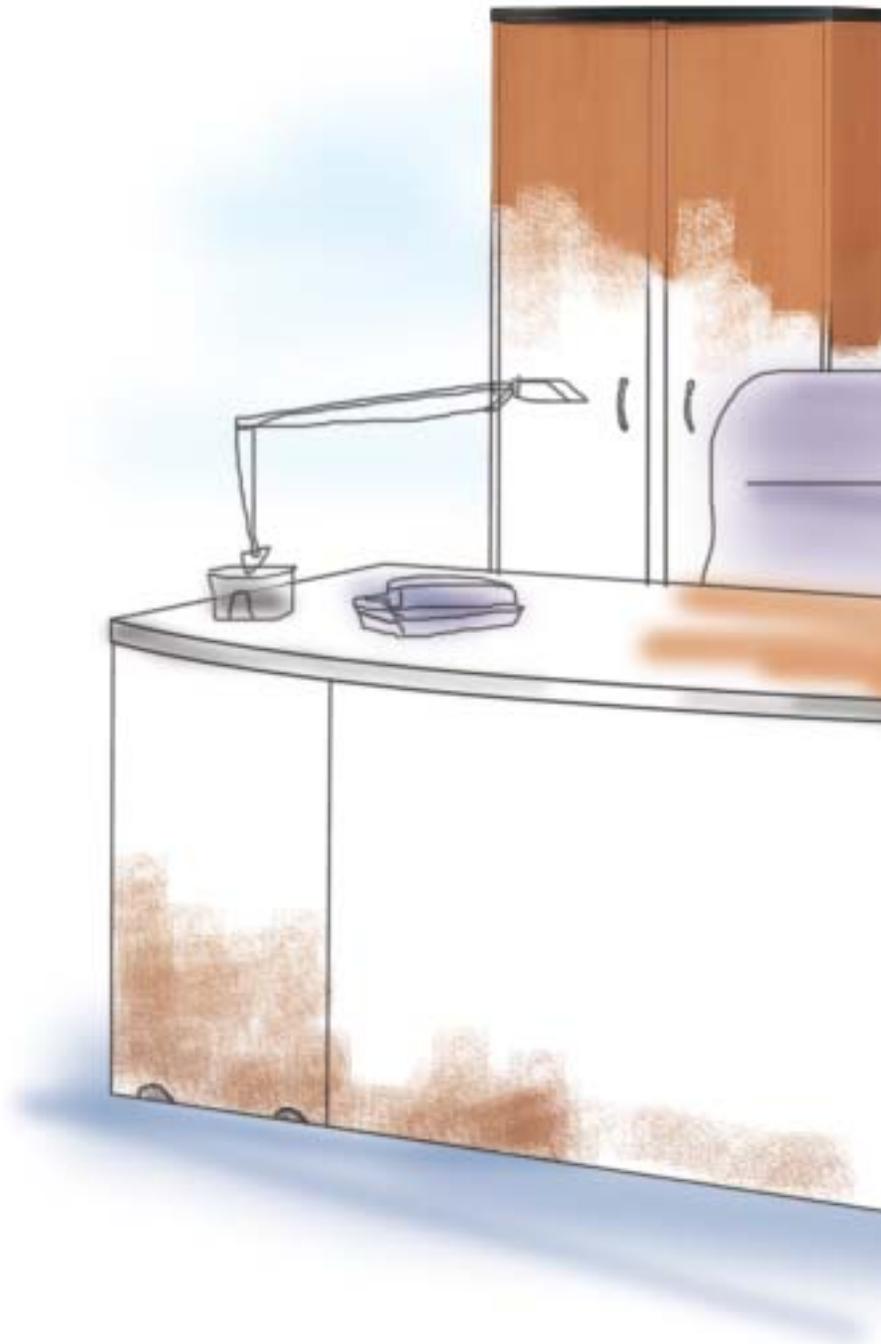

Featuring premier quality laminates in six faux wood finishes, and three solid finishes Harmony's color palette offers cool to warm tones that work in any environment. *Harmony—a tremendous value for your furniture investment.*

1000 SERIES

Double
Pedestal Desk,
Wardrobes
with Credenza

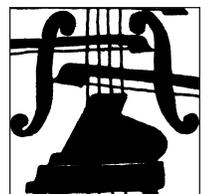

Harmony excels in ease of assembly and configuration allowing for a powerful and exciting workplace. You'll find this line gives you many options, such as this distinctive bowed-front desk and comprehensive utility credenza. There are any number of items that can be added to these basic units to customize your space. In this example, complementing the free-standing desk are matching wardrobes at each end of the wall unit. Overhead storage, a mobile pedestal and a versatile paper management organizer are all part of a modular work space designed for convenience.

4000 SERIES

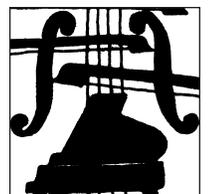

Conference
End, Bridge
and Credenza

Harmony's components provide semi-private office settings for managers and others requiring computer work space, meeting areas, varying amounts of storage, and the ability to interact with co-workers. The configurations in this series provide maximum desk surface and storage capacity without relinquishing aesthetic appeal. This workstation features a conference end for informal meetings. Easy access to stored files and ample desk surface area provide the work space needed for project-driven managers. Harmony's quality laminate and modular construction offer casegoods with the stability, look and feel of high-end wood furniture. Harmony products resist damage from spills, abrasions, heat and the harmful effects of direct sunlight, while providing an ageless appearance for years to come.
