Advanced Seating Products

**UNICOR**

Prepare to be **liberated** from the confines of ordinary office seating with **freedom**. It adjusts automatically to support the body as it moves from task to task. The result is more than a chair. **freedom** functions as a high-performance work tool, utilizing technology to maximize natural, spontaneous movement — movement that's essential for a healthy body and a **comfortable** day's work.

**Intelligent Headrest**

*Freedom's* dynamic, position-sensitive headrest moves into place as you recline and out of the way as you sit upright. It's contours cradle your neck for unmatched comfort. Headrest height can easily be set within a 5-inch range to fit virtually any user.

**Instantly Adjustable Armrests**

Body-friendly armrests adjust in sync to keep you in balance. Adjustment is accomplished instantly with a simple, one-handed motion. With an expansive height range of 7 inches that includes below-thigh-level positioning, armrests can quickly move into the ideal position for any task.

**Passive Recline Support**

*Freedom* incorporates an intelligent mechanism that senses the weight of the user and automatically adjusts to provide optimal support in every seated position — without knobs, locks or levers. The recline ranges from 6° forward to 27° back, providing maximum flexibility and constant support.

These are but three of the many revolutionary features you'll find in this remarkable new chair. Ask for a demonstration and try it out yourself. Discover just how freeing office seating can be.

# UNICOR *freedom*

This product line is **exclusively** available to federal government customers through UNICOR.

### Product Numbering for a Custom Chair

#### Example

For a custom chair, you would make choices resulting in a 14-character product number like this:

FC-HB-AA-UG-SM-S-C-00

- Always start with FC (Freedom Chair)
- Choose **Back** style code
- Choose **Armrest** style code
- Choose **Seat Pan** style code
- Choose **Mechanism** style code
- Choose **Seat Height Cylinder** style code
- Choose **Caster** style code
- Choose **Fabric** style code (see previous page, bottom)

(see Seating Product Options at left for codes)

#### Pricing for the Example Custom Chair (above)
