## TEMPORARY SECURITY FENCE PANELS

Security fence panels provide immediate, temporary perimeter protection. Easy to install, portable and easily modified, they are ideal for construction sites, restricted areas, crowd control, equipment security, sporting events, emergency protection, utility repair, building access, etc. Solid welded panels include easily connected security posts. Panels attach with two clamps, and are portable and durable. Easily installed—no digging or drilling! Each end stands securely on 6" x 24" metal plates, so no concrete is required.

UNICOR's fencing program can address all your security needs. We manufacture a full line of fencing including ornamental, chain link and security panels, and we can provide installation services for temporary or permanent fence applications.

## FILTRATION SERVICES

UNICOR is a one-stop resource for your total filtration needs. We have the right solution to help you achieve and maintain clean, quality air in:

- airports
- auditoriums
- maintenance facilities
- hospitals
- museums
- office buildings

### Extended Pleated Air Filters

- pleated air filters are widely used as pre-filters for higher efficiency filters or as final filters
- used as a pre-filter, these medium efficient filters substantially extend the life of more expensive high efficiency filters
- used as a final filter, these filters are up to 2-1/2 times more efficient than conventional filters
- 100% synthetic pleated design offers greater dust holding capacity and longer life (generally, the deeper the pleats, the longer the filter will last between changes)
- enclosed in a heavy-duty, moisture resistant die cut frame that will not crack, warp, or distort under normal operating conditions
- pleated media is nonwoven, 100% synthetic engineered media, reinforced with galvanized expanded metal
- UL Classified for flammability only: Class 2 (R12347)

### Standard capacity air filters feature:

- average atmospheric efficiency of 20% - 25% (RIDGE A 52.1 1992)
- 150 °F max. temperature
- 100% synthetic media, engineered for consistency
- priced individually; sold in full cartons

CARRIERS & VESTS

**Quality Is Built Into Every Vest**

Your protective vest can be the difference between life and death. We take the manufacture of these garments very seriously, and have stringent quality assurance performance measures in place from arrival of the fabric in the factory through the shipment of your completed vest.

Fabric is shipped and received under strict security conditions, and certificates of fabric conformance accompany all deliveries. The fabric is tagged and subsequently followed throughout the production process.

All materials are cut using a pattern certified by the UNICOR quality assurance manager and factory manager. A factory supervisor ensures that each piece of material is cut properly. Throughout the sewing process, quality assurance checks are made and documented.

Every vest must pass a final inspection before it leaves the factory, and each step of the packaging process is closely scrutinized.

**Your Choice of High Grade Ballistic Materials**

Kevlar® vests are made of Kevlar® KM2, a tough synthetic aramid fiber that, for its weight, is five times stronger than steel. An aramid fiber is a high strength, low stretch material. It is flame resistant, will not melt, and has been treated to be water repellent. When woven as fabric it becomes virtually impenetrable, providing unsurpassed protection against gunshot wounds.

It can minimize injuries from falls, explosions, automobile accidents and fires, yet is comfortable and easy to wear.

K-Flex®/T-Flex™ is a unidirectional, 0°/90°-oriented non-woven fabric with high-performance fiber materials. K-Flex®/T-Flex® is fifth generation body armor material which produces panels 25%-40% lighter than the lightest aramid panels currently in the marketplace.

Each layer weighs no more than 0.04 lbs. per square foot. K-Flex®/T-Flex™ incorporates Kevlar® fibers which are hermetically sealed as the material is produced. Materials are unaffected by perspiration and other wetness. Also, K-Flex®/T-Flex™ is not susceptible to performance degradation from heat, unlike polyethylene-based ballistic materials.

UNICOR manufactures body armor at two levels of protection: Threat Level II and Threat Level IIIA. Both meet the National Institute of Justice (NIJ) Standard 0101.03. Concealable body armor for everyday wear is designed to protect against low and medium energy handguns.

**Measuring Procedures & Sizing Chart for Inner Ballistics Carrier**

(please print)

Body Armor Measurements Name \_\_\_\_\_

Follow Steps One, Two, and Three and record information in blocks at left.

1. Measure the chest diameter and record in Block #1.
2. Measure the waist diameter 1" above the belt and record in Block #2.
3. Measure from the front top of belt over the shoulder to the back top of belt and record in Block #3.

A copy of this sizing chart must accompany each individual Body Armor Vest or Carrier order to ensure proper fit.

UNICOR will calculate the appropriate size Vest or Carrier, as determined by your individual measurements. Call the Factory Manager at FCI Yazoo City, MS, telephone (662) 751-4800 ext 5674, if you have any questions about measuring.

## CARRIERS

### Ballistic Nylon Carriers in Blue or Black

These superb UNICOR carriers are constructed of 100% breathable nylon for a comfortable fit.

F.B.I. studies indicate that about one third of the felonious fatalities that occurred from 1980 to 1992 might have been prevented by soft, concealable body armor. Our goal is to make your body armor as comfortable as possible.

#### Standard Features

- made for both over and under the shirt wear
- ballistic panels can be inserted with any type carrier of the same size

## FLEET MANAGEMENT/VEHICULAR COMPONENTS

With facilities strategically placed throughout the country, UNICOR's Fleet Management/Vehicular Components offerings provide innovative, cost-effective options to get the most from your equipment at a fraction of the replacement cost. Since we began offering our upfitting & remanufacturing services to the Federal Government, we've grown into a highly technical operation with a tradition of delivering quality products at significant savings. We can customize our services to meet your needs. Ask us about your specific requirements at [www.unicor.gov/fleet](http://www.unicor.gov/fleet).

### REMANUFACTURED VEHICLE COMPONENTS

We remanufacture wheeled vehicle platforms and their components for the U.S. Armed Forces. Complete remanufacture of engines (all sizes), transmissions, starters, alternators/regulators and many others to OEM specs. Tactical wheeled vehicles such as Humvee, most variants of all trailers, 5-ton truck series, and many more receive our expert attention through ASE certified mechanics.

### NEW VEHICLE SERVICES

UNICOR offers custom vehicle retrofitting, upfitting of new vehicles and manufacturing of custom components. Current production lines include complete law enforcement packages for Border Patrol sedans, pickup trucks and sport utility vehicles. Custom components include grill guards, cargo barriers, computer mounts, window security screens, rear security doors and rear deck lights, to name a few.

### FLEET MANAGEMENT SERVICES

Through a commercial partnership with Maximus, UNICOR is able to offer customers the latest technology to maintain fleet operation. Our internet-based reporting system features procurement tracking, asset management, bar coding, workflow and personnel management, plus a fully integrated fuel management system. We custom-configure all packages to meet your specific operational needs.

Call the Fleet Management/Vehicular Components Marketing Representative at (202)353-2666.

## RECYCLING

UNICOR's Recycling component is responding to the Federal Government's electronics challenge.

In lieu of continued abandonment and destruction, UNICOR's e-Waste program provides an environmentally sound

way to recycle electronics scrap in a cost-competitive manner on a nationwide basis. This full-service recycling program is an integrated part of the Federal Government's e-scrap solution.

Processing methods begin with receiving, testing, asset tag removal, auditing, and documenting the equipment per agency requirements.

UNICOR adheres to strict data security and integrity measures with high-level DoD wiping procedures of all hard drives. Additionally, all equipment is inspected for CD-rom and floppies with personal or classified data.

UNICOR's Recycling operations also helps "repurpose" the lives of individuals who have taken the wrong path in life, while recycling materials in ISO-9001:2000 and International Association of Electronics Recyclers IAER certified facilities.

Call Todd Baldau at (202) 353-2091 for more information about UNICOR's e-Waste program.

Call Janice Aragon at (202) 564-6890 about donating your electronics equipment. [www.unicor.gov/recycling](http://www.unicor.gov/recycling).
