

Concerto Casegoods Furniture

Concerto

A European re-imagining of Transitional style, Concerto offers old world craftsmanship at a contemporary value. Book matched ash veneers, and solid hardwood banding allow the crisp design to sing. Storage elements include book-cases as well as pedestal and lateral files, which feature central locking mechanisms and full-extension ball bearing drawer suspensions for years of flawless operation.

Concerto

Concerto conferencing suites are cohesion exemplified. Comprehensive storage units built from modular components provide customized, mixed purpose storage—all unified by their smooth radius edge. Conference tables featuring the same distinctive lines and edge detail bring the handsome ash veneer to your fingertips.

Concerto

The modern executive office environment is embodied by innovation, not mesh back chairs. Concerto's executive conferencing desk features a drop-leaf bow front to facilitate impromptu meetings and wire management. A knee-hole credenza allows the storage unit to act as an auxiliary work area. Reception areas with Concerto occasional tables provide a subtle introduction to Transitional style.

Working together to make a difference!
