FED EX ADDRESS:
400 First Street, N.W.
Washington, DC 20534

We provide a one-stop source for your complete fencing needs, both interior and exterior. The selection includes chain link, ornamental, access control, and temporary security fencing systems.

Chain Link Fencing System

We can provide two inch, hi-tensile strength links with a patented aluminize process. This process makes our chain link fencing safer, smoother, and stronger, for years of maintenance free care, even in the most severe applications, such as marine and saltwater. Highly recommended for commercial use in high security areas, this fencing meets the strict specification of grade B or schedule 40 federal government standards, and exceeds the ASTM and AASHTO specifications, making this a premium fencing system.

Temporary Application Fence System (in-stock)

We have a complete line of standard panel size chain link fences to meet your short leadtime for temporary construction or short-term use for access control of sensitive or restricted areas.

Access Control Fence System

We can provide a wide variety of gates, fittings, and hardware for sliding overhead gate applications and high security crash gates.

Sentinel Products, LLC
