

DATA SERVICES

Move Beyond Paper.

Do you have...

Rooms full of documents deteriorating from age or frequent handling? File space constraints?

Too many drawings, maps or charts occupying valuable file space?

Let Us Help You Move Beyond Paper!

With more than 30 years' experience behind us, we specialize in Electronic Imaging Services and OCR/Indexing/Coding Services. We provide conversion for a wide range of documents, including EDMS (Electronic Document Management Systems) and drawing conversion; distribution on standard media; GIS (Geographic Information Systems) and CAD (Computer Aided Drafting) applications.

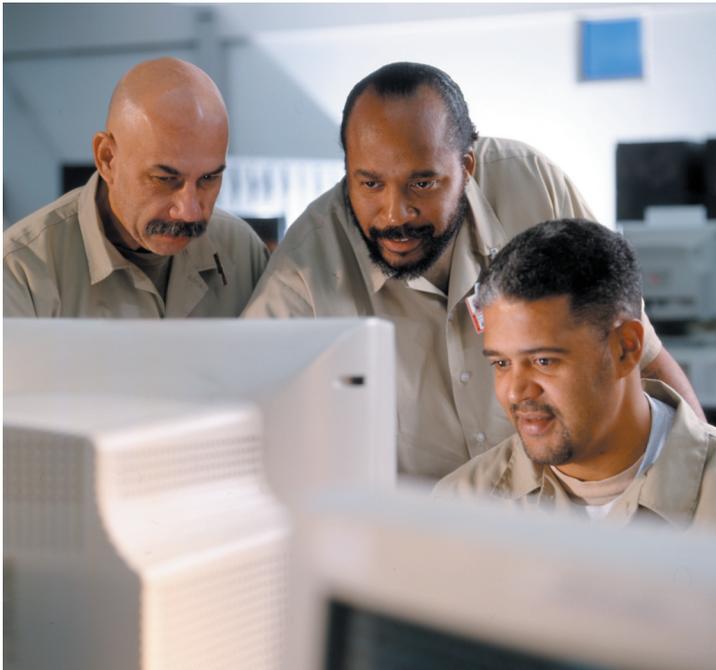

We get the job done quickly, economically and accurately. Our document conversion professionals manage a technically proficient workforce in all applications. Backed by an outstanding reputation, we specialize in:

- E-Government documents
- Technical manual text/illustrations
- Litigation support documentation
- Contour maps and nautical charts
- Training and policy manuals
- Environmental and technical reports
- Office correspondence and files
- Microfiche, microfilm and aperture cards
- Engineering/facilities drawings
- Other GIS and CAD applications

A Few of our Satisfied Customers:

- Patent and Trademark Office
- United States Navy and Coast Guard
- Environmental Protection Agency
- National Park Service
- Nuclear Regulatory Commission
- National Imagery and Mapping Agency

Take a Closer Look

Electronic Imaging Services

Look to us for a cost-effective way to efficiently retrieve your documents and data. We'll scan it and return your documentation as electronic images on your preferred media; plus.. we can help you analyze and define your requirements, and even design an appropriate retrieval system solution.

OCR/Coding/Indexing Services

We have the resources to convert text, paper-based information and old electronic data to a new electronic format, for effective management, rapid retrieval and wider dissemination (via electronic media, online document retrieval systems, or publication on the Internet).

Digitizing Services

We can convert images, maps, charts and drawings to a digital format for greater ease of storage, use and resource sharing. And we can plot your documents, photos, schematics, text, maps, etc., using a large format plotter or laser type printer.
