Quality Is Built Into Every Vest

Your protective vest can mean the difference between life and death. We take the manufacture of these garments very seriously, and have stringent quality assurance standards from arrival of the fabric through shipping of the vests.

The fabric is shipped and received under strict security conditions. Certificates of fabric conformance accompany all fabric. The fabric is tagged and can be followed throughout production.

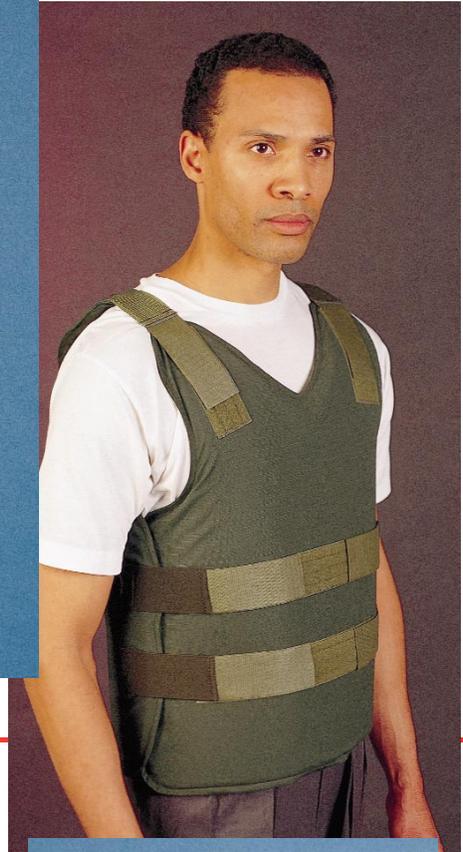

All materials are cut using a pattern certified by the UNICOR quality assurance manager and factory manager, and a factory supervisor ensures that each piece of material is cut properly. Throughout the sewing process quality assurance checks are made and documented.

Each vest passes a final inspection before it leaves the factory, and each step of the packaging process is closely supervised.

Your Choice of High Grade Ballistic Materials

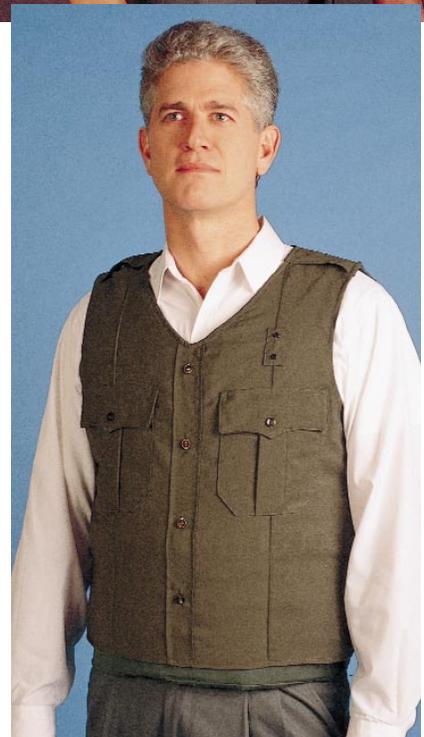

Kevlar® vests are made of Kevlar 1000 denier or KM2, a tough synthetic aramid fiber that, for its weight, is five times stronger than steel. An aramid fiber is a high strength, low stretch material. It is flame resistant, will not melt, and has been treated to be water repellent. When woven as fabric it becomes virtually impenetrable, providing unsurpassed protection against gunshot wounds. It can minimize injuries from falls, explosions, automobile accidents and fires, yet is comfortable and easy to wear. KM2 is lighter weight than Kevlar 1000 denier.

Spectra Shield® is a polyethylene fiber that is high strength but stronger and lighter weight than an aramid fiber. It is 10 times stronger than steel, and highly moisture and abrasion resistant.

Protection You Can Count On

***UNICOR manufactures
body armor at two levels of
protection: Threat Level II
and Threat Level IIIA.
These meet the National
Institute of Justice (NIJ)
Standard 0101.3.
Concealable body armor
for everyday wear is
designed to protect against
low and medium energy
handguns.***

Threat Level II Vest

Made of Kevlar KM2® ballistic panels covered with 100% breathable nylon. The vest is overlapped under the arm to give side protection. The ballistic panels can be interchanged with an under the shirt carrier or over the shirt carrier. Both can be custom made to match your duty uniform. Each size comes in short, regular and long, and correct fit is assured based on your measurements. Available in olive drab green in male and female sizes, although female sizes must be custom ordered. Other colors are available as custom order.

Contact the UNICOR Customer Service Center at (800) 832-3168 or fax (606) 254-9692 and we will be happy to send you our Ballistics Measuring Procedures and Sizing Chart.

Threat Level III & IIIA Vest

An over-the-shirt vest made of Kevlar 1000® Denier or Spectra Shield® ballistic panels (shown on page 4). The ballistic panels are covered with a removable outer shell made of 100% ballistic nylon and can be easily removed for laundering. Both vests provide protection to the wearer's side. Available in black or navy; sizes are for both male and female (unisex).

Kevlar® vests are made of Kevlar® Fabric, a tough synthetic aramid fiber that, for its weight, is five times stronger than steel. An aramid fiber is a high strength, low stretch material. It is flame resistant, will not melt, and has been treated to be water repellent.

Spectra Shield® is a non-woven polyethylene fiber that is high strength. It is 10 times stronger than steel, highly moisture and chemical resistant, and has excellent cut resistance for applications where slash protection is also required. This vest can be upgraded to a Level III by adding a steel trauma plate (shown on page 5). However, you must order the vest with a front pocket to accommodate the steel plate.

Testing Is Rigorous — Standards Are High

During testing each vest panel is shot six times, wet and dry, from different angles. Testing is performed to standards set by the National Institute of Justice (NIJ), and Standard 0101.03 is the recognized standard for the manufacture of ballistic garments. Although it not mandatory to meet this

standard, UNICOR chooses to do so. Additionally, UNICOR randomly selects vests for additional testing on a quarterly basis.

Duty Gear

**It's Your
Choice...Buy
as a Set or
Individually**

Duty Belt

This duty belt is strong enough to hold all your accessory equipment and flexible enough to provide a good fit. Built to last, it is constructed of two layers of 2-inch black nylon web and an inner velcro liner permitting easy size adjustment. Each belt comes with a strong polymer quick-release buckle and can be held in place with belt keepers. The duty belt and keepers are sold separately and in sets.

Belts come in S (26-30), M (32-36), L (38-42), XL (44-48) and XXL (50-54).

Trauma Plates

Upgrade Your Level IIIA Vest

These steel plates can be inserted in the pocket on the front of the Level IIIA vest to protect the center chest area. Each plate weighs 4.6 pounds, and when inserted upgrades the threat level of the vest to Threat Level III. Note: If you want to upgrade your vest, be sure to order the one with a pocket.

Safety Eyewear

**Protect
Yourself
On Duty
and On the
Range**

Eye Armor® Safety Eyewear

Because these spectacles were designed for combat and have been field tested by the US Army under extreme weather conditions, they're very useful in law enforcement conditions. They feature a single piece panoramic lens of impact-resistant polycarbonate. The molded-in side shield gives you front and side ballistic protection and unobstructed side vision. Spectacles come with anti-fog, anti-scratch, anti-static and anti-UV coatings. Temple length is adjustable and there are two interchangeable earpieces. Lenses are replaceable. Meets Military Ballistic Standard (MIL-STD662), and ANSI Z87.1-1989.

Decals

Customize Your Vehicles Easily

UNICOR offers custom police vehicle identification decals made to your agency specification. Decals are pressure sensitive

and are easily applied to any clean surface. Decals can be produced from your artwork or we can design artwork for you at no additional cost. You will receive a

POLICE

sample for approval before your order is printed. Fax your request to (303) 763-2566.

Law Enforcement Targets

Improve Your Aim

UNICOR targets are made from paper specifically designed for firearms use, and approved by the National Rifle Association. You'll find there is little tearing around bullet holes which is beneficial for accurate scoring and longer target life. Targets are made from 100% recycled materials. All targets are printed with superior quality inks giving you clean scoring lines. The lines are virtually invisible from shooting distance, so shooters are not distracted by their scores.

All targets are sold in carton lots (200 targets per carton). Discounts are available for large volume orders, and distribution services are available for those agencies with centralized purchasing.

Special Orders Welcome

We can print any target, and would be pleased to discuss your special requirements. Call (320) 245-2106.
