HOW TO USE THIS CATALOG

Key to Graphic:

1. The new Metals/
BASICS Catalog is divided into four product line groups; Lockers & Cabinets, Tables/Work Benches, Steel Shelving, Industrial Racking, Food Service, and Additional Products.
2. The pages in each group are color coded and titled for clarity.
3. Opening pages have information specific to each product line group.
4. Interior pages of these sections are designed to make ordering simple. Charts contain ordering, shipping, and pricing information.
5. Colors available for any given product are represented on each page along with its 2-digit color code.
6. Color choices are made by the customer and the 2-digit color code must be added to the end of the stock number when ordering.
7. Other specific information, such as technical support, custom work, and load bearing capacity, can be found in the tinted color panels.
8. Web site and toll-free number to access additional information and pricing.

Metals/BASICS catalog... supplying products to meet your needs.

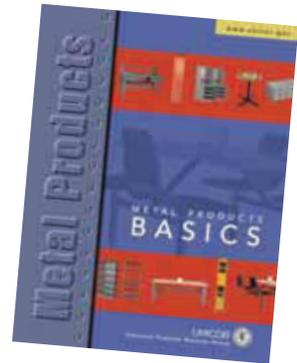

It's easy to find products that work best for you, such as...

- Lockers for all personnel/staff needs
- Ready-to-assemble shelving in an outstanding range of dimensions and sizes, shipped with fasteners for easy assembly with hand tools.
- Workbenches and Café tables to fit every application.
- Racking for warehouse operations.
- Metal cabinets and lockers that are economical and durable.
- Depending on your project's complexity, design specialists can provide guidance over the phone, prepare sketches and estimates from a floor plan you provide, or even visit your site to develop a layout — for a nominal administrative charge.

The ultimate security: a full guarantee. UNICOR is committed to meeting your highest standards for performance. If at any time a product does not meet your expectations, UNICOR will promptly repair or replace it at no expense to you.

We invite you now to get to know UNICOR's quality metal products and the flexibility and versatility they offer. If you have any questions, please call UNICOR's Customer Service Center at 800 827-3168.

You are viewing the **Metals/BASICS** catalog.

- Industrial Cantilever Racks

WE ARE COMMITTED TO YOUR TOTAL AND COMPLETE SATISFACTION.

UNICOR has been manufacturing top quality, durable metal products for more than 50 years. We are proud of our capabilities and are ready, willing, and able to put them to work for you.

We are convenient and easy to use. Since UNICOR is a government-established source, you need not waste valuable time with a prolonged procurement process. You can come directly to us. Additionally, you don't need a firm specification before you talk with us. We may even be able to suggest solutions to your needs. All you have to do is give us a call.

This catalog is not intended to be all-inclusive. Rather, it is designed to give you an idea of our diverse product line. If you don't see exactly what you need, contact us and we will gladly work with you to prototype a product to your exact specifications.

Your complete and absolute satisfaction is our top priority. We are committed to this goal. In fact, we are so sure you will be satisfied with our products and services that we offer the following "Escape-Proof" Guarantee.

We take great pride in teaching a good work ethic and marketable job skills. As a result, we produce high quality goods and services for our customers. We are committed to your complete and continual satisfaction. If, at any time, an item we have provided does not entirely meet your expectations, we will cheerfully and promptly repair or replace it, entirely at our expense.

Let us show you what we can do for you.

If you need a quote...

If you need a design layout...

If you want assembly or installation of a metal product...

Just call UNICOR at 1 800 827-3168.

TERMS AND CONDITIONS

The Customer Service Center

Contact the FPI Customer Service Center for any questions or assistance regarding the information in this price list. Our business hours are 7:30 a.m. to 6:00 p.m. (EST), Monday through Friday (excluding federal holidays). Our phone number is **800 827-3168**.

Order Acknowledgment

FPI acknowledges every order. Orders are accepted, billed, and invoiced based on the information in this written order confirmation. Should you note any discrepancy, please advise us immediately.

Your order acknowledgment indicates a due date when your product will arrive. In the event your products are manufactured earlier than scheduled, we will ship them upon completion, unless otherwise specified. Project level orders will be coordinated through our Project Managers.

Order Modifications

Modification to your purchase order will be accepted up to four weeks prior to the due date indicated on your order acknowledgment. However, if the revision results in a change in product availability, a new due date may be set by FPI. Such due date adjustments may be for your full purchase order, whether or not the specifications of all line-items on it are modified. All purchase order modifications are acknowledged in writing, including the annotation of any adjusted due date(s). Purchase order cancellations may result in a re-stocking fee.

Standard Lead Time

Typical lead time for product delivery is 60 days after receipt of your order.

Product Delivery and Pricing

We take both FOB Origin and FOB Destination orders. All products are shipped via surface transportation. On FOB Origin orders, title/product responsibility passes to the customer at the time of shipment. You may arrange your own transportation on FOB Origin orders, coordinating with FPI accordingly. Otherwise, your own order will be shipped by common carrier at your expense.

On FOB Destination orders, title/product responsibility passes to the customer upon delivery to the dock of the designated point of delivery. Freight charges are included in the product prices listed with a FOB Destination column.

Contact the Customer Service Center for destination prices where none are given. Such destination

pricing for delivery outside the continental United States must be negotiated based on the freight rates at the time of shipment.

Services such as layout design, storage, inside delivery, and installation, and off-loading are not contained in this price list. Contact a technical representative at 202 305-3424 for a quote on these services.

Geographic Coverage

All shipments for the continental United States include the 48 contiguous states and Washington, D.C.

Special Note on Overseas Shipments

All FOB Destination shipments are prepaid to the Port of Embarkation. All freight and handling charges beyond the port of embarkation are the responsibility of the local government purchasing facility, unless other arrangements are made through FPI. The freight charges for deliveries to Alaska, Hawaii, and foreign countries will be negotiated based on freight rates at the time of delivery. There is an additional 10% crating charge for orders not shipping to the 48 contiguous states. All shipments must include a physical address.

Special Packaging

Standard packaging varies per individual product. FPI will accommodate your special packaging requests; however, an upcharge may apply. Contact the Customer Service Center for more information.

Shipment Claims

FPI products are packaged to comply with carrier requirements. All shipments should be inspected by the consignee before acceptance. The delivering carrier should be requested to record any damage or shortage of items shipped. If any shortages are discovered, please notify the FPI Customer Service Center immediately.

Shipping damage and shortage claims must be filed with the carrier within 15 days of delivery. This applies to both FOB Destination and FOB Origin shipments. Carrier liability ends after 15 days for shipping damages or shortages.

Concealed Damage Claims

Claims for concealed damages must be filed with the carrier within 15 days after the delivery of goods. This applies to both FOB Destination and FOB Origin shipments. Carrier liability ends after 15 days for concealed damages.

Neither FPI nor the carrier will be responsible for damages if shipments are left unopened and/or claims are not filed within 15 days.

Product Storage

If necessary, FPI may store products at the factory at no expense to you for a period not to exceed 30 calendar days; however, such storage is predicated on the availability of our warehouse space at the time of need.

If FPI storage space is not available, or if you require storage in excess of 30 days, we will assist you in finding commercial storage alternatives at current market rates, at your expense.

Customer-Delayed Deliveries

Please notify the Customer Service Center at least two weeks prior to the confirmed due date when you cannot receive delivery of goods by that scheduled date. We will delay the delivery at your request; however, after 30 days of such delay, you will be invoiced for the subject products whether or not delivery is extended beyond the first 30 days.

FPI may allow up to two weeks for shipping. Therefore, if you do not request delayed delivery at least two weeks prior to the confirmed due date for arrival of your shipment, you may incur additional handling costs.

FPI will bill you for such handling costs if you refuse receipt of the goods, or request delayed shipment within less than two weeks prior to the due date on your order acknowledgment.

Product Returns

All product returns must be coordinated in advance with the FPI Customer Service Center. All freight or express service charges must be prepaid on return shipments.

Product returns may be subject to your being invoiced for additional handling/restocking fees. FPI will determine and notify you of such charges upon receipt and inspection of the returned goods.

Order Status

Call the Customer Service Center to obtain status of your order during order processing or the product and shipment/delivery of goods. We will give you the status based on your purchase order number and/or the FPI work order number on your order acknowledgment.

You may also access your order status by clicking on the customer service icon on our website at: www.unicor.gov.

Invoice Payment

Payments from government agencies should be addressed to:

FPI - FPI
P.O. Box 371736
Pittsburgh, PA 15252-7736

Payments from private sector parties should be addressed to:

FPI - LEX
Accounts Receivable
P.O. Box 11670
Lexington, KY 40583-3640

All general billing or specific invoice questions should be directed to the FPI Customer Service Center at **800 827-3168**.

Product Warranty

FPI guarantees all industrial products will be free from defects in materials and workmanship. If at any time an item we have provided does not meet your expectations, we will repair or replace it at our expense.

See *MANUFACTURING CAPABILITIES*, page 51

UNICOR Offers a Wide Range of Storage Products

...a multiple range of storage products. Our construction is sturdy, durable, and secure. There are a vast array of colors available and handle and door options to meet all of your storage needs.

WARDROBE AND UTILITY STORAGE CABINETS

Unicor offers a wide range of flexibility and choice in the wardrobe and utility storage cabinets line. The applications for which these products can be used is endless, from the front office to the warehouse and barracks. Institutional wardrobes and storage lockers have been a UNICOR specialty for years.

SPORTS LOCKERS

From personal storage lockers to sports lockers, UNICOR has the styles and options you need. Choose from standard widths of 12", 15", 18", and 36"; configurations ranging from single-door to multi-door units; and options like sloped tops and bases that make your lockers right for your space. UNICOR lockers are made of sturdy 24-gauge steel, with 22-gauge tops and bottoms and 16-gauge doors. Lockers are available assembled or unassembled.

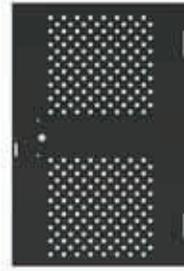

LOCKERS AND CABINETS

Heavy-Duty Storage Locker

Our heavy-duty storage locker features fully welded construction for use in areas where extra security and durability are desired. Locker is 24" deep, 48" wide, and 72" tall, and features a 30" wide door with padlockable sliding barrel bolt. Locker is fabricated from 1" steel square tubing and 16-gauge perforated panels. Interior features one solid 14-gauge shelf plus four side shelves that are fixed. Included is a 30"

clothes rod. Standard color is black, but other colors are available upon request. Shipping weight is 346 lbs.

SHELVING

STEEL SHELVING

Whether you choose our ready-to-assemble shelving packages, component parts for custom shelving, or the flexible clip-type shelving, UNICOR has the shelving you need. You'll find our merchandise strong and durable.

It's as easy as 1, 2, 3, 4 to specify your shelving. Refer to the following graphic pictorial of each step.

HOW TO SELECT STEEL SHELVING:

1 Select a Style/Type:

- Open shelving with detachable bolt fasteners
- Open shelving with clip-type fasteners
- Closed shelving with detachable bolt fasteners
- Closed shelving with clip-type fasteners
- Ledge shelving
- Counter shelving
- Wire shelving

Each style offers a wide range of applications with many accessory items to maximize your storage requirements.

open shelving

closed shelving

counter shelving

ledge shelving

2 Choose a Size:

UNICOR shelving is available in a wide range of depths, widths, and heights.

Widths	Depths
24"	12"
30"	15"
36"	18"
42"	24"
48"	30"
	36"

Standard sizes are found on page 36

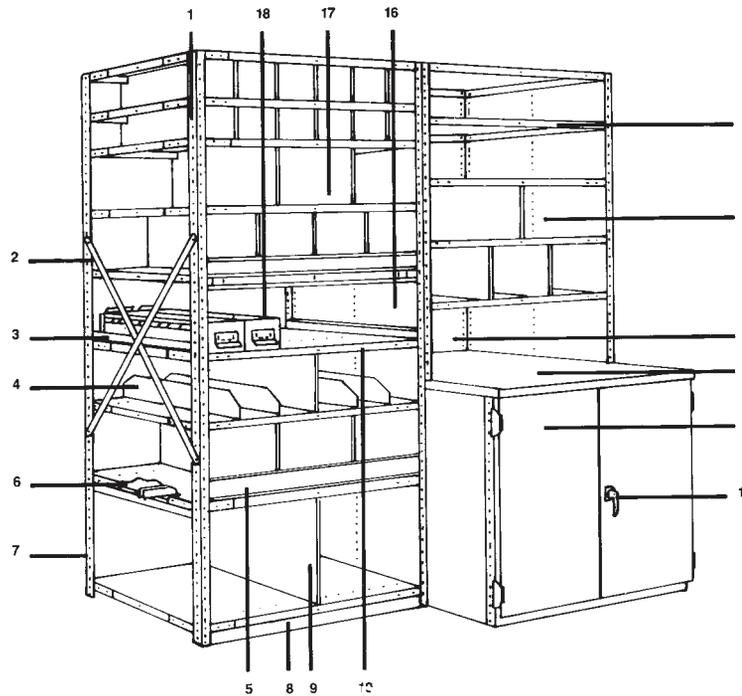

Shelf Height	Number of Openings	Number of Shelves
75"	6	7
87"	7	8
99"	8	9
111"	9	10

Numerous additional sizes available up to 171"

3

Determine a Configuration:

UNICOR accepts customer-supplied layout and designs or offers assistance based on your available floor space. UNICOR staff will assist you in the selection of the style that best fits your requirements and will provide complete design and layout services of your storage areas, if requested. Call **800 827-3168** for assistance.

SHELVING

OPEN STEEL SHELVING - NUT & BOLT

Quality Shelves

With UNICOR steel shelving components, you can easily construct custom storage configurations that make the best use of your space. A basic unit is self-standing and includes all shelves and corner posts using angle-sway braces. A rack of units combines two or more units side by side or back to back. Standard units have shelves spaced 12" apart on centers, adjustable on 1" centers throughout the height of the units. All components comply and exceed GSA and Federal Government requirements.

For special configurations and sizes not listed and installation/off-load needs, call (202) 305-3424 .

Call for specifications of Class 3 capacity shelves.

CLOSED STEEL SHELVING - NUT & BOLT

Closed Steel Shelving

Closed shelving provides a more finished appearance and reduces the risk of items slipping through open sides. Shelving consists of one initial unit plus one or more additional units. The additional units are identical to the initial unit but have no partition or end panel. Top and bottom shelves are fixed and other shelves are available on 1" centers. Using components listed on the next few pages, you can build UNICOR shelving units into many configurations, and use accessories described on pages 26-27 to increase functionality. Detailed component listings are also available from our Customer Service Center at (800) 827-3168, (202) 305-3424, or (405) 262-4875 ext. 391.

SHELVING

COUNTER SHELVING - NUT & BOLT

Counter Shelving Units

Counter shelving has a smooth top ideal for a work surface. The counter top plus the top and bottom shelves are fixed. Additional units are the same as the initial unit without one partition or end panel. Units are 39" high, depths range from 12" to 24", and the units are available in three load capacities (call for specifications of Class 3 capacity shelves.) This shelving is available in a variety of standard or custom colors.

Call for specifications of Class 3 capacity shelves.

E-Z-LOCK WAREHOUSE SHELVING

The bigger the storage job, the better the reason to turn to UNICOR wide-span shelving — the answer for storing large, odd-sized, or bulky loads. Perfect for manual or automatic loading (except fork truck loading), these units come in a wide variety of sizes and shelf capacities, and snap together easily with no extra bracing required. Open on sides and back for maximum access

E-Z-Lock Standard Units

Using E-Z-Lock's snap-together assembly, standard units provide sturdy, organized shelving at an affordable price. A variety of sizes and capacities offers versatile light and medium-duty storage in commercial and industrial applications. Shelves are easily adjusted in 2" increments to accommodate nearly any size load.

E-Z-Lock High-Capacity Bulk Shelving Units

When extra capacity is needed, upgrade to High-Capacity Shelves, which can carry up to two-and-one-half times the shelf load of regular bulk units. Extra shelves can be added to high-capacity bulk units for additional storage area and capacity. (Actual decking is not included.) Recommend 3/8" particle board or 1/2" marine plywood.

E-Z-Lock Bulk Storage Units

E-Z-Lock bulk storage units have greater shelf areas than standard units, making them ideal for storing large or odd-sized items. The wide range of shelf sizes and capacities combined with the option of adding extra shelves allow you to design the bulk shelving system that best accommodates your needs.

TABLES/WORK BENCHES

CAFÉ TABLES

UNICOR makes these table and seating combinations with durability, flexibility, and beauty in mind. They're constructed with sturdy metal frames in your choice of bolt-down legs for permanent attachment to the floor or adjustable glide models, featuring chrome-plated glides with nylon pads for smooth nonscratch movement. Tabletops are made of thick, high-grade particle board permanently bonded with high-pressure laminate. The fiberglass seating is designed for years of easy-care maintenance and is available in your choice of flat disc style or molded highback shells. The choice is yours: You decide the table size, leg style, and chair style you prefer. Then choose the color metal frame you want, as well as the tabletop laminate shade. The wide range of seating colors gives you the opportunity either to brighten dining and lounge areas with vivid colors or create a relaxed atmosphere with neutrals.

How to Build a Model Number for Café Tables:

A Select a fiberglass seat color.

B Select a laminate finish.

UNICOR brings you tables that are tops in form and function. A choice of laminate tops are available to beautifully complement any surrounding. Quality craftsmanship and attention to detail set these tables apart from the crowd. Ample surface space lets you work or play in comfort. With UNICOR, you not only get an excellent product and value, but you get a company that caters to your needs. Table base color is black; other colors available by special order.

Logo Table

Logo tables are unique tables that can display your organization's seal embossed on a 24" or 30" diameter wooden top. Be proud and display your organization's seal. The standard seals are: Navy, Marine, Army, BOP, Coast Guard, and Air Force. Seals can be custom made per your specifications at an additional first-run cost.

TABLES/WORK BENCHES

WORK BENCHES

UNICOR modular work benches offer the stability of a rock-solid work surface with the addition of secure storage below for tools, instruments, or other essentials. A great feature is the flexibility with which they can be configured. For more information on configuration and custom applications, contact our technical representative at 202 305-3424.

Basic Work Bench - Configuration and Accessories

Select to the height you need or customize to any application with the addition of accessories. Leg adjustments, height adjustment sleeve, floor plate, height adjustment sleeve with caster base, rigid caster, swivel caster with brake, back/end stops. Risers, bottom shelves, drawer with sliding tray, drawer, mounting angle, drawer lock with spring bolt, dead bolt, or master key are available. Contact a technical representative at 202 305-3424 for assistance.

PLATFORM-TOPPED WORK BENCHES

Steel-only tabletop materials are used, and you can accessorize with drawers, back and end stops, risers, lower shelf, or electrical outlet strips. Then choose a leg design: fixed or adjustable, in the basic height you require. Adjustable legs range from 30" to 36" high, and adjust on 1" centers. Legs are pre-punched for tabletop, horizontal stringer (stabilizer), floor anchoring, and shelf attachments, and have knockouts for electrical outlets.

INDUSTRIAL STACKING RACKS

Pallet stacking racks stack together for instant forklift-ready storage, then nest neatly together when unneeded, taking up very little floor space. Wood pallets can be forked right on the racks or the entire rack can be used as a pallet. Available in 13 models in 3000-lb. and 4000-lb. load

capacities, the units are made of tube steel in a rigid post and brace structure that provides maximum strength with maximum weight. Color coding identifies size and load capacity. Ideal for supply depot operations and food storage facilities.

PREP TABLES

Table with Upper Shelf and Cutting Boards

Designed to satisfy a host of needs, this super- heavy-duty table is the ideal workstation in the kitchen or bakery. The rear half of the work surface is 14-gauge stainless steel and the front half accommodates two removable (36" x 18") polyethylene cutting boards. Elevated 19" above the work surface is a 14-gauge stainless steel shelf (10" x 72") with an 8" high backsplash. Handy upper shelf serves as condiment, utensil, and food storage, or for cooling breads and dishes hot from the oven. Table includes a two-piece removable undershelf and legs with adjustable bullet feet.

MISCELLANEOUS

Mobile Storage Shelving

Practical and efficient, these mobile carts can be rolled in and out of coolers, freezers, and storage areas to create storage where and when needed. These sturdy, all stainless steel units are available in a variety of sizes. Heavy-duty 5" swivel casters (two with brakes) have rubber bumpers and provide quiet operation. Units meet MLL-2-40144E and GSA and DCASMA standards and specifications. Shipped unassembled, units are easily put together with simple hand tools. Instructions provided.

SEGREGATION UNITS AND ACCESSORIES

Segregation Beds

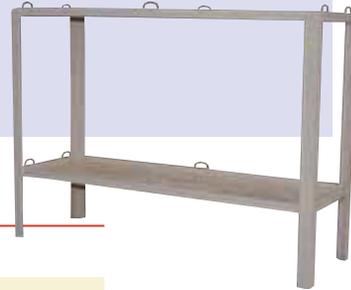

The single segregation style bed comes fully welded. It can also receive the storage compartments and restraint loops when ordering.

NOTE:
SEGREGATION BED SHIPPING OPTIONS

Shipping charges vary depending on the destination, optional equipment, and quantity. Shipping charges will be significantly lower if the amount of full truckloads is reduced. UNICOR, FCI El Reno offers an optional "field welded" segregation style bed. The designation for this type bed is the "knockdown" (DKD) segregation bed. This style bed requires assembly by the customer. The legs of the beds are supplied with a gusset at the necessary locations to ease the assembly process. Assembly drawings of the bed are available upon request.

METAL LUMBER & MISCELLANEOUS

examples of finished metal lumber pieces

Metal Lumber

Slotted angles are the universal fasteners of metal shelving and support units. This multipurpose product can be cut, combined, and fastened together through pre-punched hole patterns into unlimited configurations for endless functions. Use for cross-aisle and down-aisle shelving, for tall package racking, hanging support for overhead doors, and more. Available in 12- and 14-gauge galvanized steel. Sold in bundles of 10 pieces with 75 bolts and nuts.

FILTRATION SERVICES

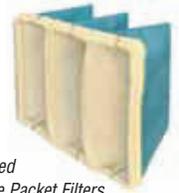

UNICOR provides a one-stop source for your total filtration needs. With many different products, we have the right solution to help you achieve and maintain the clean, quality air you want in your facility. See our website at www.filtrationservicesinc.com for a printable brochure.

Filter Products For Everyday Facility:

- airports ■ auditoriums ■ maintenance facilities
- hospitals ■ museums ■ office buildings

Standard Capacity Air Filters Feature:

- average atmospheric efficiency of 20% - 25% (ASHRAE 52.1 1992)
- 150° F max. temperature
- 100% synthetic media, engineered for consistency
- Priced each. Sold in full cartons. \$1,000 minimum order

Extended Surface Packet Filters

Rigid Cell Filters

Standard & Class I Pleated Filters

Extended Pleated Air Filters

APPLICATIONS: Pleated air filters are widely used as pre-filters for higher efficiency filters or as final filters. When used as a pre-filter, these medium efficiency filters will add substantially to the life of the more expensive high efficiency filters. When used as a final filter, these filters will be up to 2½ times more efficient than conventional filters. The 100% synthetic pleated design offers greater dust holding capacity and longer life.

Generally, the deeper the pleats, the longer the filter will last between filter changes.

CONSTRUCTION: The pleated filter pack is enclosed in a heavy-duty, moisture resistant die cut frame that will not crack, warp, or distort under normal operating conditions. The pleated media is nonwoven, 100% synthetic engineered media, reinforced with galvanized expanded metal. UL Classified as to flammability only; Class 2 (R12347).

UNICOR has a complete filtration program. For further details, call 920 845-5810 or 919 575-2050. To see an overview of this new product line, request catalog CATM1800.

NON-PRESCRIPTION SAFETY EYEWEAR

Industrial Spectacle with Sideshields

DECALS

UNICOR offers custom police vehicle identification decals made to your agency specification. Decals are pressure sensitive and are easily applied to any clean surface. Decals can be produced from your original artwork or we can design artwork for you at a minimum charge. You will receive a sample for approval before your order is printed. For a quote, fax your request to (817) 782-4753.

MANUFACTURING CAPABILITIES

UNICOR's metals factories offer a diverse array of metal fabrication capabilities. The broad range of equipment styles and capacities allows the metal factories to accommodate a wide variety of products from short run custom projects to multiyear contracts. Teamed with the expertise of the Product Support Center, the Industrial Products Group can work with your technical experts from product design through manufacturing start-up. As your partner in the Federal Government, we can work with your team to quickly bring products on line without the cumbersome restrictions of the solicitation process. Credit card and EDI capabilities are also on line at FPI to make working together as simple as possible. Below is a brief summary of our current manufacturing processes.

Stamping

Punch press capabilities range from turret presses capable of producing 1000 parts per hour to 500-ton presses with 10-foot beds. Part sizes range from 3" braces through shelving uprights up to 16 feet long. Metal thicknesses from 24-gauge (0.024) through 10-gauge (0.135) are commonly used. Although low carbon steel is the most frequently used material, aluminum, stainless steel, and other metals can also be fabricated. Automatic coil feeders are used where appropriate to maximize production efficiency. A variety of tooling options are available including permanent tooling, universal tooling, and steel rule dies. The proper tooling approach is selected based on complexity, production volume, and budget considerations. CNC turret presses are available for short to medium runs where permanent tooling is not feasible due to lead time or cost constraints.

Forming

Every UNICOR metal factory is equipped with a wide range of mechanical and hydraulic press brakes to handle most metal forming needs. Capacities up to 300 tons are available with 12-foot beds and CNC back-gauging for outstanding accuracy and consistency. A variety of standard tooling configurations are in stock, and custom tooling can be developed in-house for special shapes. Roll forming machines with integral punch presses and flying cut-off are also available for high volume requirements in items such as pallet rack uprights and beams.

Machining

Flexible CNC turret lathes and machining centers can quickly turn designs into finished products. By integrating the CNC machines with computer-aided drafting and design stations, part designs are quickly and accurately converted from concept to reality. Carbon steel, stainless steel, and aluminum are routinely used; and other metals can be processed as well.

Welding

Resistance welding, MIG, and TIG welding expertise are on line at all UNICOR metal factories. We routinely handle carbon steel, stainless steel, and aluminum. American Welding Society procedures are utilized and certification of welders is available. Resistance welding is used for sheet steel in the range of 24-gauge (0.024") to 16-gauge (0.060"). Arc, MIG, and TIG welding are used for heavier gauge plate and tubing.

Coating/Finishing Systems

The modern powder coating systems used by UNICOR provide an attractive and durable finish. First, a multistage wash system prepares the parts for painting. A phosphate coating for improved paint adhesion is included in the wash cycle. Parts are then routed through a dry off oven before entering the powder paint booths. Electrostatic paint application ensures a uniform coating even in hard to reach areas. The finish is then cured to the required gloss and hardness in carefully controlled ovens. The standard coating is an epoxy base; however, other coatings including polyesters, acrylics, and hybrids are available. Numerous standard colors are available, and we can match FED STD 595A COLOR CHART.

Tool and Die

Each UNICOR metal factory is equipped to build and maintain its own tooling. In addition, the Product Support Center provides expertise in tooling design and fabrication for complex projects requiring the use of CNC machining centers as well as electrodischarge machining (EDM). From complex progressive dies to universal tooling, UNICOR's tool and die staff have the expertise to select the most cost effective tooling for your program.

Services

To support our line of material handling products such as shelving and pallet racks, UNICOR offers complete layout and bill of material development including site visits if required. We can either use your layout or develop the layout from building measurements. UNICOR staff and inmates can quickly turn the floor plan into a detailed quotation and layout. Complete installation services are also available nationwide. In addition to assembly and installation of shelving and pallet racks, UNICOR can provide floor preparation and minor repair. We can also provide relocation service to move existing material handling equipment from one facility to another. Our expert installation crews will make sure your facility not only looks good but is ready to go to work on schedule.

UNICOR Metal Factory Locations

El Reno, Oklahoma: The El Reno facility is located about one half hour west of Oklahoma City. Its primary product lines are pallet racking, institutional beds, and casters. In addition to a variety of stamping, forming, and welding machinery, the El Reno factory is equipped with two large roll forming machines used to produce pallet rack beams and uprights. Two powder paint lines are available to paint parts up to 20 feet in length.

Lewisburg, Pennsylvania: The Lewisburg factory is located about one hour north of Harrisburg and is housed within the walls of a United States Penitentiary. This facility is primarily dedicated to producing a variety of metal stampings and welded assemblies to support other UNICOR factories. Other product lines include lockers, cabinets, and shelving. Lewisburg is equipped with a very versatile mix of stamping, forming, and welding machinery and has two powder paint lines capable of handling parts up to 54" by 84".

Pekin, Illinois: The Pekin factory is located about 15 minutes south of Peoria in central Illinois. This facility is unique compared to other UNICOR metal factories due to its capabilities in machining as well as stamping and forming. Its equipment includes a CNC turret lathe with automatic bar feed for parts up to 10" in diameter. A baked enamel paint systems allows for quick paint change-out for shorter production runs. This factory is also equipped with a new high speed turret press. Without the investment in expensive hard tooling, the turret press can fabricate prototypes or production runs of complex parts in a wide variety of sizes and metal gauges.

Terminal Island, California: This facility is located south of Los Angeles and produces shelving, lockers, and tables. The factory has substantial capability in stamping and forming, including press brakes up to 300 tons. Arc MIG welding and resistance welding of carbon steel are routinely performed, and two powder paint lines provide outstanding finishing capability.

We are very proud of our facilities and would welcome an opportunity to provide you with a tour of any one of the above factories. For more information, please call (202) 305-3424.
