CARRIERS & VESTS

Quality Is Built Into Every Vest

Your protective vest can be the difference between life and death. We take the manufacture of these garments very seriously, and have stringent quality assurance performance measures in place from arrival of the fabric in the factory through the shipment of your completed vest.

Fabric is shipped and received under strict security conditions, and certificates of fabric conformance accompany all deliveries. The fabric is tagged and subsequently followed throughout the production process.

All materials are cut using a pattern certified by the UNICOR quality assurance manager and factory manager. A factory supervisor ensures that each piece of material is cut properly. Throughout the sewing process, quality assurance checks are made and documented.

Every vest must pass a final inspection before it leaves the factory, and each step of the packaging process is closely scrutinized.

UNICOR manufactures body armor at two levels of protection: Threat Level II and Threat Level IIIA. Both meet the National Institute of Justice (NIJ) Standard 0101.03. Concealable body armor for everyday wear is designed to protect against low and medium energy handguns.

Your Choice of High Grade Ballistic Materials

Kevlar® vests are made of Kevlar® KM2, a tough synthetic aramid fiber that, for its weight, is five times stronger than steel. An aramid fiber is a high strength, low stretch material. It is flame resistant, will not melt, and has been treated to be water repellent. When woven as fabric it becomes virtually impenetrable, providing unsurpassed protection against gunshot wounds.

It can minimize injuries from falls, explosions, automobile accidents and fires, yet is comfortable and easy to wear.

K-Flex®/T-Flex™ is a unidirectional, 0°/90°-oriented non-woven fabric with high-performance fiber materials. K-Flex®/T-Flex® is fifth generation body armor material which produces panels 25%–40% lighter than the lightest aramid panels currently in the marketplace. Each layer weighs no more than 0.04 lbs. per square foot. K-Flex®/T-Flex™ incorporates Kevlar® fibers which are hermetically sealed as the material is produced. Materials are unaffected by perspiration and other wetness. Also, K-Flex®/T-Flex™ is not susceptible to performance degradation from heat, unlike polyethylene-based ballistic materials.

Measuring Procedures & Sizing Chart for Inner Ballistics Carrier (please print)

Body Armor Measurements Name _____

Follow Steps One, Two, and Three and record information in blocks at left.

1. Measure the chest diameter and record in Block #1.
2. Measure the waist diameter 1" above the belt and record in Block #2.
3. Measure from the front top of belt over the shoulder to the back top of belt and record in Block #3.

A copy of this sizing chart must accompany each individual Body Armor Vest or Carrier order to ensure proper fit.

UNICOR will calculate the appropriate size Vest or Carrier, as determined by your individual measurements. If you have any questions about measuring, email moreunicorinfo@central.unicor.gov

CARRIERS & VESTS

Ballistic Nylon Carriers in Blue or Black

These superb UNICOR carriers are constructed of 100% breathable nylon for a comfortable fit.

F.B.I. studies indicate that about one third of the felonious fatalities that occurred from 1980 to 1992 might have been prevented by soft, concealable body armor. Our goal is to make your body armor as comfortable as possible.

STANDARD FEATURES

- made for both over and under the shirt wear
- ballistic panels can be inserted with any type carrier of the same size

TABLEWARE

Designed and Made for The Most Demanding Food Service Environments

Six-Compartment Food Tray

Our co-polymer blend food tray meets or exceeds rigorous independent laboratory performance testing for durability under a wide range of conditions, including prolonged exposure to boiling water, humidity, freezing temperatures, bleach, and acids. It is resistant to abrasion, chipping, denting and warping.

The tray is intelligently designed and constructed – one of the toughest on the market – and virtually unbreakable, making it the perfect choice for correctional facilities and other demanding high volume food service environments.

FEATURES

- Six proportioned compartments for a variety of servicing options
- Dishwasher safe with stacking lugs for faster drying
- Dimensions: 14" wide, by 9" deep, by 1 ½" high
- Rounded edges for safer handling
- Superior resistance to food acids, oils, and stains
- Priced per box of 18
- 2 year warranty
- Available in beige and chocolate colors

Flatware

Our knife, fork and spoon are designed for rigorous daily use, and made of heavy-weight polypropylene as an added safety feature.

FEATURES

- Durable, standard-sized flatware
- Highly resistant to stains and breakage
- 8" serrated knife
- 7" dual-purpose spoon for use as a teaspoon and soup spoon
- 7 ¼" fork with a unique tine design for added durability
- Dishwasher-safe
- Each utensil priced per box of 300
- Available in beige and orange colors

Tumbler

Generously sized and designed for serving either hot or cold beverages, our polycarbonate Tumbler is virtually unbreakable. Its pebbled texture provides added slip-resistance, and tapered sides enable stacking and separation ease.

FEATURES

- Tough polycarbonate composition; shatterproof
- Ample 17-ounce capacity
- Stays cool to the touch for hot beverage service
- Dishwasher-safe
- Measures 5 ¼" tall and 3 ½" outer diameter
- Priced per box of 24
- 2 year warranty
- Available in opaque amber brown

FLEET MANAGEMENT/VEHICULAR COMPONENTS

With facilities strategically placed throughout the country, UNICOR's Fleet Management/Vehicular Components offerings provide innovative, cost-effective options to get the most from your equipment at a fraction of the replacement cost. Since we began offering our upfitting & remanufacturing services to the Federal Government, we've grown into a highly technical operation with a tradition of delivering quality products at significant savings. We can customize our services to meet your needs.

Remanufactured Vehicle Components

We remanufacture wheeled vehicle platforms and their components for the U.S. Armed Forces. Complete remanufacture of engines (all sizes), transmissions, starters, alternators/regulators and many others to OEM specs. Tactical wheeled vehicles such as Humvee, most variants of all trailers, 5-ton truck series, and many more receive our expert attention through ASE certified mechanics.

New Vehicle Services

UNICOR offers custom vehicle retrofitting, upfitting of new vehicles and manufacturing of custom components. Current production lines include complete law enforcement packages for Border Patrol sedans, pickup trucks and sport utility vehicles. Custom components include grill guards, cargo barriers, computer mounts, window security screens, rear security doors and rear deck lights, to name a few.

the Power to Solve!***

RECYCLING

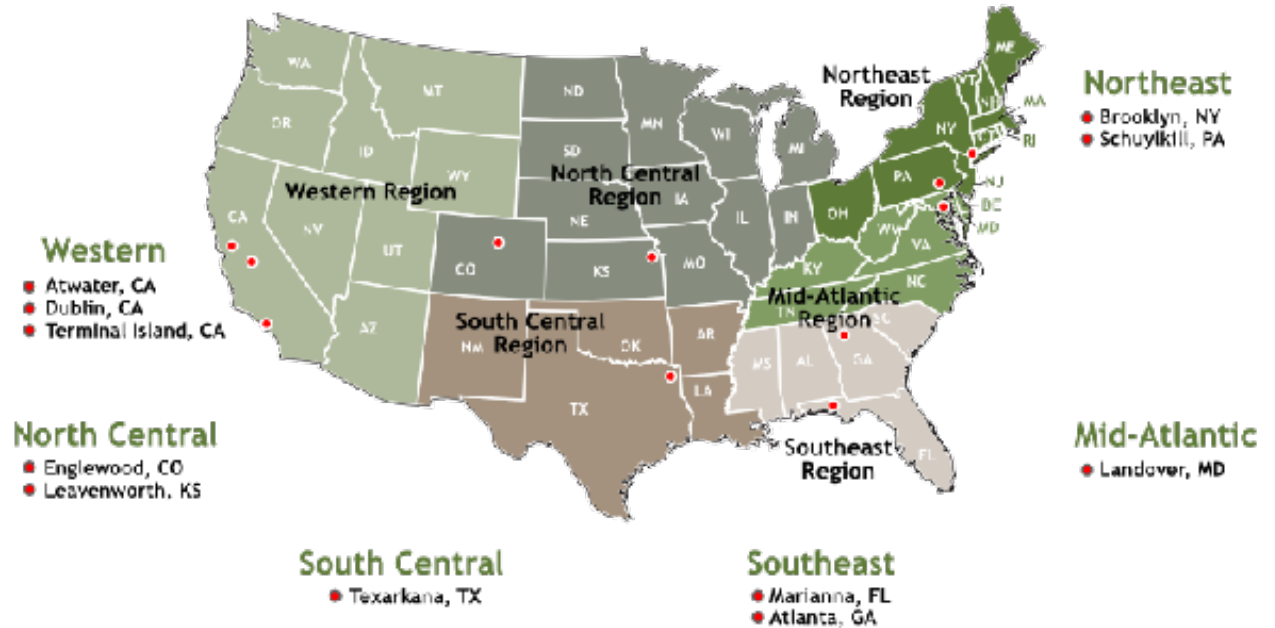

UNICOR's Recycling component is responding to the Federal Government's electronics challenge.

In lieu of continued abandonment and destruction, UNICOR's e-Waste program

provides an environmentally sound way to recycle electronics scrap in a cost-competitive manner on a nationwide basis. This full-service recycling program is an integrated part of the Federal Government's e-scrap solution.

Processing methods begin with receiving, testing, asset tag removal, auditing, and documenting the equipment per agency requirements. UNICOR adheres to strict data security and integrity measures with high-level DoD wiping procedures of all hard drives. Additionally, all equipment is inspected for CD-rom and floppies with personal or classified data.

UNICOR's Recycling operations also helps "repurpose" the lives of individuals who have taken the wrong path in life, while recycling materials in ISO-9001:2000 and International Association of Electronics Recyclers IAER certified facilities.
