ColorWorks
SYSTEM FURNITURE FABRICS
The Office Furniture Group (OFG) now positions its systems fabrics collection in-line with the ColorWorks™ Seating Program!

OFG’s idea of servicing our customers to the best of our ability just took another step forward. The OFG team is proud to introduce a brand new way of marketing our systems fabrics – ColorWorks™ – the Systems Fabrics Guide. This brochure works hand-in-hand with the latest offerings in the OFG seating fabric program. Whether you are designing one office or an entire building, ColorWorks™ makes it easier to develop an outstanding scheme of colors and patterns anyone would be proud to call their own.

ColorWorks™ – The Systems Fabric Guide achieves this by offering new cutting edge designs that work collectively with our strongest selling patterns. This brochure was developed to allow mixing and matching of all of our fabrics, seating and systems. All you have to do is grab both of your ColorWorks™ brochures and let your mind wander about the infinite possibilities!

WHAT’S INSIDE

This brochure will introduce you to our 8 new and exciting patterns, MELANGE, NEXUS, PARAGON, RAIN DROPS, SPECTRE, TERRAIN, WHIRLWIND and ZEST. The newest in textural effects, yarn systems and crisp, elegant designs come together with 7 of our best-ever selling patterns to provide you with an offering second to none. Easy to reference specifications and care information are provided for each pattern on the page following the images. As you review this new brochure, the OFG team hopes you appreciate that our seating fabrics and systems fabrics synergy make it easier to furnish your project, no matter how large or small. Each pattern and color-way was developed to mesh with other vertical patterns as well as any of the seating fabrics. In a word, what we hope to achieve for you, our valued customer, is…………… Simplicity!

ORDERING IS SIMPLE

This brochure of photo color cards was created to assist in selecting your vertical fabrics with the greatest of ease. Every photo color card represents an actual sample card that can be ordered so you can touch and feel the fabric.

It is just so simple! Feel free to contact Mayer Fabrics Customer Service Center by faxing your request to 800-7SAMPLE (772-6753) or going to www.unicor.gov to request samples. Use the corresponding stock numbers listed under the item or items you desire when ordering. Vertical fabric memo samples are 8" X 10".

NOTE: Each pattern has a specific pricing group associated with it. These price points can be found in the back of the ColorWorks™ – Systems Fabrics Catalog (page 32).

CLEANING INFORMATION

WS: Water/Solvent Cleaner – Spot clean, with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

For detailed specifications, care and cleaning information, please refer to the Mayer Fabrics web site at www.mayerfabrics.com.

Please keep this card intact. Individual memo samples are available. Please contact Mayer Fabrics or refer to the Mayer Fabrics web site.

Color matching: Mayer will always attempt to ship a satisfactory commercial match. Because of industry standard dye lot variation, colors may not match exactly. Specifications are correct at time of printing. Current specifications are available on the Mayer Fabrics web site. www.mayerfabrics.com

Class in the colorfastness requirements is based on a numerical scale of 5 for negligible or no color transfer to 1 for very severe color change or color transfer.

**FLAMMABILITY**

ASTM E84 Class 1 or A
California Technical Bulletin 117, Section E (Equivalent to BIFMA)  Passes

**CLEANING INFORMATION**

WS: Water/Solvent Cleaner – Spot clean, with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

For detailed specifications, care and cleaning information, please refer to the Mayer Fabrics web site at [www.mayerfabrics.com](http://www.mayerfabrics.com).

Please keep this card intact. Individual memo samples are available. Please contact Mayer Fabrics or refer to the Mayer Fabrics web site. Color matching: Mayer will always attempt to ship a satisfactory commercial match. Because of industry standard dye lot variation, colors may not match exactly. Specifications are correct at time of printing. Current specifications are available on the Mayer Fabrics web site. [www.mayerfabrics.com](http://www.mayerfabrics.com)

*ACT® Registered Certification Marks

Terratex® is a registered trademark of True Textiles Inc. and designates fabrics that are made from 100% recycled or compostable materials using increasingly sustainable manufacturing practices to produce a high quality product that is recyclable at the end of its useful life.

This 100% polyester panel fabric is included in the Underwriters Laboratory Fabric Recognition Program. Additional testing of this U.L. recognized component fabric is not required on approved panels from participating manufacturers.
**TECHNICAL INFORMATION**

Content: 82% Post Industrial Recycled Polyester, 18% Post Consumer Recycled Polyester

Width: 66"  
Weight: 11.36 oz./linear yard  
Back: None  
Cleaning Code: WS  
Approx. Repeat: 6.28” H, 8” V  
Directional: Yes  
Rearranged: No
